Weather Brings Out Votes

Indications Are That More Ballots Will Be Cast Than In 1946 Campaign

Today, election day, will probably see more than 6,000 eligible voters casting their ballots. In the 1946 election the total vote was 5,640. Four years ago a complete Democratic ticket was elected.

A survey of the polls early today showed better than an average vote being cast. A more extensive campaign has been put on this year by both parties in an endeavor to win the favor of the voter.

Both Democratic and Republican organizations have many automobiles in operation urging Mr. and Mrs. Sedalia to cast their ballot for the respective candidates.

Heavy voting usually occurs between 8:00 o'clock and 7:00 o'clock when the polls close. This is particularly so in the second, third and a portion of the fourth wards because of the Missouri Pacific shop vote and business houses which close at 5:00 o'clock in the afternoon.

Expect Large Vote

Veteran judges and clerks of elections all indicated this morning they expect the voting to exceed that of four years ago. But how much more, no one seemed willing to venture a guess.

The election today is unusual due to two separate sets of judges. One set of judges is handling the city election and school levy election, while the other is handling only the gas tax referendum. Out side of Sedalia, in the county precincts, only the gas tax referendum is being voted upon.

Forty years ago, the Democrats were successful in electing a mayor, being the late J. W. Mellor. In that election 878 votes were cast and the Republicans won three out of the eleven offices at stake.

Two Sedalians, who ran for office in that election are still living. One a Democrat, Judge E. W. Couey, who was elected city attorney and the other a Republican, Robert M. Johns, who was elected alderman from the Fourth ward. Both of these men are still very active in their respective parties.

Weather Brightens Up

Monday and early this morning the indications were it would be a "rough day" as to weather. Rain fell the greater part of Monday followed by a light snow, which covered the ground early today. About 8:00 o'clock this morning the sun "broke through" the clouds and made the party workers happy.

However, the light breeze through the day made it rather nippy for the workers outside of the polls who were passing out cards for the various candidates.

The Democrat-Capitol will receive the returns tonight, but it will probably be 8:00 o'clock or later before any definite information can be given as to the results in any of the precincts.

Man Drowns In Flash Flood

BARNHART, Mo., April 4—(P)—One man apparently drowned and his wife and seven children were rescued last night in the flash flood of Glauze Creek on the outskirts of this Jefferson County community.

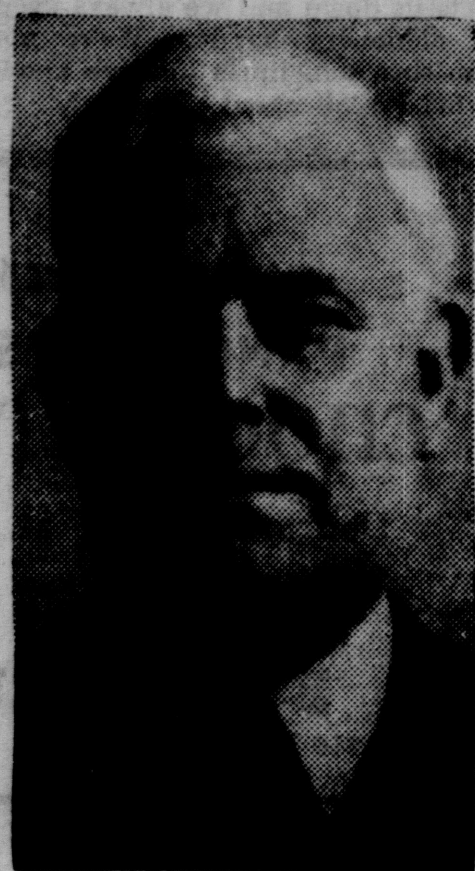

Tom Marler, 42, was swept away by flood waters as he and his wife went for help after the creek started flooding their home. He was still missing this morning. Mrs. Marler told authorities she managed to climb into a tree when her husband was swept away. They were crossing a flooded area. She was rescued from the tree more than an hour later.

The water had risen four and one-half feet in the house when the Marler children, ranging in age up to 12 years, were removed. State police reported the small stream, which empties into the Mississippi river near here, was falling today.

Bootleg Whisky Business Booms
WASHINGTON, April 4—(P)—The bootleg whisky business is booming.

So says the Distilled Spirits Institute, which keeps tabs on the situation for legal whisky makers. The institute reports that federal agents seized 1,792 "moonshine" stills during January and February. That's 387 more than they found in the same period last year and 283 more than in the same months of pre-war 1940.

Died Today

Edward P. Mullaley of 608 South Washington avenue, Sedalia postmaster, who died at the Bothwell hospital at 11:44 o'clock this morning. He had been ill for some time and in the hospital since last Saturday.

E. P. Mullaley, Postmaster, Died This A.M.

Suffered From Heart Ailment, Ill For Some Time

Edward P. Mullaley, aged 68 years, of 608 South Washington avenue and for the past fifteen years postmaster in Sedalia, died at the Bothwell hospital at 11:44 o'clock this morning, where he had been a patient since Saturday.

Mr. Mullaley had suffered a heart attack some years ago, but improved and was able to return to his duties at the post office and apparently had regained his health. He had not been in the best of health, however, for the past several weeks and Saturday went to the hospital because absolute rest seemed necessary.

His son, William Mullaley of Washington, D. C., was summoned home and with his wife and daughter Martha Jane are expected to arrive this evening. Also enroute to Sedalia is Mrs. Mullaley's sister, Mrs. Fred Jensen of Colorado.

Born in Lexington

Mr. Mullaley was born in Lexington, Mo., but came to Sedalia at an early age. Prior to being appointed postmaster he was employed as a linotype operator at the Sedalia Democrat-Capitol office. He began his apprenticeship as a printer in Sedalia, completed it in Greeley, Colo., then returned to Sedalia and was employed at various printing shops, later at the newspaper office.

In November, 1948, he was presented with a 40-year membership pin by Lionel G. Cooper, then president of the Sedalia Typographical Union No. 206 in a brief ceremony at the postoffice.

Mr. Mullaley was a member of St. Patrick's church and the Benevolent and Protective Order of Elks. For years he had been active in various union organizations, holding state as well as local offices.

He leaves his wife, the former Miss Cora Corbett; one son William Mullaley of Washington, D. C.; three brothers, Jack and Matt Mullaley of Sedalia and James Mullaley of St. Louis and two sisters, Mrs. Molly Scruggs and Mrs. Harry Hamm of Sedalia.

A son, Jack Mullaley, died in 1928.

The body was taken to McLaughlin's chapel.

No funeral arrangements had been made late this afternoon.

Lutheran Minister Dies
CAPE GIRARDEAU, Mo., April 4—(P)—The Rev. W. G. Langehenning, retired Lutheran minister died at a hospital here last night. He was 88 years old.

April Brings Spring Flowers And Two Inches of Snow

With spring flowers in bloom over the city in an array of beautiful colors and many more with buds just about ready to open Sedalians were surprised to find that the spring storm with thunder and lightning, followed by a heavy rain and then hail, suddenly turned into a real snow storm. A total of about two inches fell which was as much, if not more snow, than we have had all winter.

The bright yellow jonquils that for days have been nodding gaily as the wind blew, this morning were completely white and flat on the ground and other flowers were almost covered by the wet snow that stuck to the leaves, new flowers and buds. But the warm air and morning sun soon began to melt the snow and by 10:00 o'clock there was no snow

Gov. Smith Appeals For Tax Increase For Better Roads

Governor Forrest Smith in his address Monday evening at the circuit court room of the court house in advocacy of the proposed increase in the gasoline tax for betterment of roads besides his audience attending had listeners in a hook-up of 24 radio stations.

The governor said: "Tomorrow is V-day in Missouri. It will be voting day. Your vote is urgently needed in this special election."

"The only issue is whether or not Missouri is to have better highways."

"Citizens tomorrow must determine the future of Missouri's highway building program."

"The voters must decide whether we are to have good roads in this state and maintain them, and whether we are to complete the job of lifting this state out of the mud."

"Much has been said in this campaign and quite likely some people are confused. Tonight I want to briefly, but with all the sincerity I can command, honestly and accurately report to you the real facts of the situation."

"This campaign for good roads is drawing to a close. I appeal tonight to my fellow Missourians to rally to the support of our non-political state highway commis-

sion, in its current financial crisis.

Wants Vote Of Confidence
"By giving your vote of confidence to the bipartisan state highway commission you will be helping yourself, your neighbors and your great state."

"As governor of all the people I can not, and will not, sit idly by and see our highways go to pieces for lack of revenue, without warning you of the consequences. I considered it my duty under my oath as governor."

"The state highway commission, whose record for honesty and integrity is unblemished since its creation, tells you it must have more money if it is to continue to properly maintain and expand our present state highway system."

"I have complete confidence in our state highway commission."

"I will not tolerate, so long as I am governor, any policies where our highways are concerned. Our highways are for all Missourians regardless of political affiliation."

"The road law you will vote upon tomorrow is the fairest and best highway program ever presented to the people of this state. It is a balanced road program. It helps all of Missouri. It will build state rural roads in every county (Please turn to Page 11, Col. 4)

Sand Storm Paralyzes Suez Canal Traffic

CAIRO, Egypt, April 4—(P)—One of the worst sand storms in years paralyzed traffic throughout the Suez canal area last night and kept more than 20 ships from entering the canal.

High winds broke windows in Cairo and caused at least one vessel to run aground. The storm was dying down this morning.

Election Day Bright After Rain and Snow

But Many Country Roads Were Deep In Mud Last Night

KANSAS CITY, April 4—(P)—Clearing skies gave Missouri a bright election day today after heavy rain and snow in most of the state.

At stake in the special referendum election is whether the present two cent gasoline tax shall be doubled, with one cent of the extra revenue going for low type rural roads. Polls opened at 6 a.m. and close tonight at 7 p.m.

Much of the state had an election eve snowstorm and heavy rain fell elsewhere yesterday. The wet snow extended from Western Missouri to the central part of the state. Much of it melted as it fell and it didn't stick on the highways.

The Weather Bureau said the entire state would have some sunshine today but temperatures would stay chilly. Clearing and colder, with a hard freeze, is the forecast for tonight.

Muddy Roads
Many back country roads were deep in the mud last night. Roads like quagmires were reported in Randolph county. I m p a s s a b l e roads were reported around Cape Girardeau, where one route was closed by high water.

What effect this might have on the rural voting was disputed. There were two schools of thought on the question.

1. When they see the mud, farmers will put on their hip boots and get to the polls somehow. Gov. Forrest Smith has based his campaign for the increased tax on the plea it would help get rural Missouri out of the mud.

2. Or maybe—and this is what the governor said he feared—the mud might be so deep the farmers could not get to the polls at all.

Explanations And Opinions On Business

Reports Show 'We Are Going In Several Directions'

By Sam Dawson

NEW YORK, April 4—(P)—A handful of governmental and business agencies are out with reports today on trends. A number of them offer explanations and opinions on the question that always preoccupies them: "Whether we are going?" Looking them all over, it would seem the answer is: In several directions.

Take the job picture as reported by the census bureau and interpreted by Commerce Secretary Sawyer. The bureau believes, from such reports as it gathers, that unemployment dropped 561,000 in March, while employment increased 598,000. The labor force grows steadily, as the nation grows and that is one of the reasons the gain in employment and the drop in unemployment are never exactly the same.

Employment Gain Encouraging
Secretary Sawyer is encouraged by the gain of employment to 57,551,000 and the drop in the number of the jobless to 4,123,000. He says this trend away from rising unemployment came sooner than he had expected, but he admits much of it may be due to the settlement of the coal strike and normal pick-up in seasonal industries.

But there's still another factor the secretary doesn't mention. Productivity is rising, too. New machines and methods mean that more goods are being produced with fewer man hours. That factor and the growing number in the labor force puts the problem, to industry to find more and more jobs, through making and selling more and more goods. Otherwise unemployment will start rising again.

Instilling Buying Up
Less encouraging than the drop in unemployment are some other government reports today. Installment buying continues to rise. The Federal Reserve Board says it's now \$10.8 billion, a gain of \$2.5 billion in a year. People now owe \$3.2 billion on their automobiles alone. Some people say the national income can easily swing this much buying on the credit and that the proportion of cuff to total sales is far from dangerous. But others say that

Vinson Urges Boosting of Air Strength

Wants Planes to Meet Threat of 'Atomic Blitz'

WASHINGTON, April 4—(P)—The Defense Department today ordered new studies of its \$13,911,127,000 budget to determine whether more money should be asked for Air Force and naval planes.

Secretary Johnson said he has asked joint chiefs of staff to re-examine the question.

He told a news conference he believes all of the military forces and equipment recommended by Gen. Dwight D. Eisenhower can be obtained within the present budget.

But Johnson said that if the joint chiefs recommend more money for modernized aircraft he will ask President Truman and the budget bureau for the funds.

By Ruth Cowan

WASHINGTON, April 4—(P)—The chairman of the House Armed Services committee called on Congress today to vote \$583,289,211 for more warplanes to help meet the threat of an "atomic blitz."

Protesting that the administration's \$13,911,127,000 military program "will wither American air power on the vine," Rep. Vinson (D-Ga.) urged instead that air strength be boosted promptly.

Vinson said in a speech prepared for House delivery that the President's budget for the fiscal year beginning in July does not assure adequate defense at a time when "the atomic blitz of tomorrow is a real, a genuine possibility." He added:

"It is universally known today that Russia is building the largest air force in the world. What are they building it for? They are building it for use whenever their carefully-timed Pearl Harbor Day comes around."

To Sponsor Amendments

Previously Vinson has said he expects to sponsor several amendments to the bill authorizing military spending for the year beginning next July 1. In his speech, however, he brought up only the proposal for increasing air power. The pending budget allot \$1,350,000,000 for air force procurement and \$650,000,000 for new planes for the Navy and Marines.

Vinson would give the air force an additional \$200,000,000 or a total of \$1,550,000,000 for new planes, and the Navy an increase of \$383,289,211 or \$1,033,289,211 for the same purpose.

These increases, Vinson said are needed to maintain an up-to-date 48-group air force and a modern naval air arm.

A House military appropriations subcommittee reported recently that this country now has only from 44 to 46 modern groups. Unless additional money is made available, Vinson said the nation would have only 42 modern groups by 1956. And the present bill, he added, "leaves a deficiency in naval aircraft procurement of 1,349 planes."

Ladled Out Criticism

Veteran of 36 years' experience in military legislation in Congress, Vinson ladled out caustic criticism and challenges—and some left-handed praise.

His principal target was Secretary of Defense Johnson.

"The issue is clear cut," Vinson said. "It is whether the Congress will say what kind of defense the nation will have, or whether the creature of the Congress, the secretary of defense, Mr. Louis Johnson, will tell us what kind of defense he will let the Congress have."

Harry Bridges Is Convicted

SAN FRANCISCO, April 4—(P)—Harry Bridges was convicted today of perjury.

He and his two co-defendants were likewise convicted on all three counts in the federal grand jury indictment.

The co-defendants were J. R. Robertson and Henry Schmidt, fellow-officers of Bridges in the CIO-Longshoremen's Union.

Bridges, Australian-born, is president of the union.

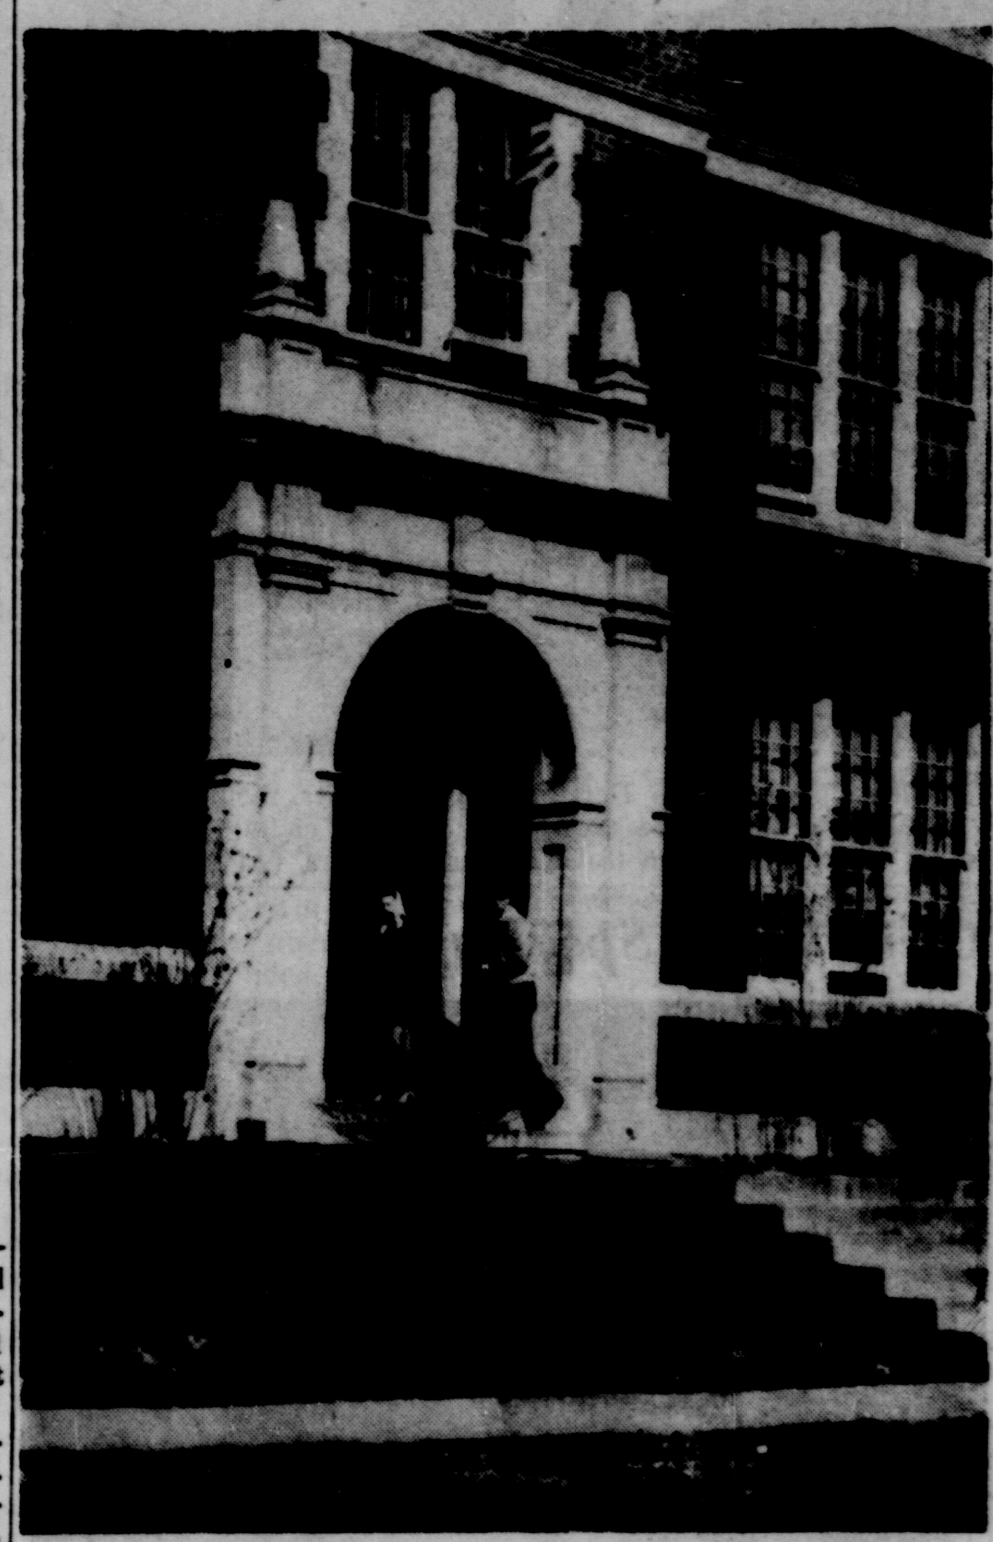

Windstorm Rips Alton Business Area

ALTON, Ill., April 4—(P)—A windstorm ripped through an Alton business section and nearby areas last night, injuring six persons and damaging several buildings.

Hardest hit was a section of ten blocks along the business street of East Broadway. All of the injured were in this area.

Lloyd Grace, 25, suffered body injuries, and William Hanke facial injuries while at work in a Laclede steel company plant. Patrolman Marion Van Fossen suffered severe hand lacerations.

Cripples Are Beneficiaries

JOPLIN, Mo., April 4—(P)—The Missouri Society for Crippled Children and the Shrine Crippled Children's hospital in St. Louis are among the principal beneficiaries of the estate of a millionaire leather goods manufacturer.

The will of the late manufacturer, Corry T. Meeker, was filed yesterday for probate. He died March 29, aged 74.

He made specific bequests of \$32,000 cash. The bulk of the estate, estimated at \$2,000,000, goes into a trust fund with relatives and the two institutions to receive the earnings.

It is estimated that the society and the Shrine hospital will divide annually between \$75,000 and \$100,000 from their share of the earnings.

Guilty Ballot Box Stuffing

CINCINNATI, April 4—(P)—The conviction of E. F. Prichard, Jr., 34, Lexington, Ky., for ballot box stuffing, was affirmed by the U. S. Court of Appeals, sixth circuit, today.

The one-time favorite of the late President Franklin D. Roosevelt was sentenced to prison for two years by Judge H. Churchill Ford last July 14.

He was convicted specifically of conspiring to forge ballots in the 1948 presidential election in Bourbon county, Ky. Prichard has been free on \$5,000 bond.

Prichard held high positions in Washington during the Roosevelt administration. At one time he was counsel for the Democratic national committee.

He also was an aide to Chief Justice Fred M. Vinson and Justice Felix Frankfurter.

Ball Game Cost Young Boy His Life

PENROSE, Colo., April 4—(P)—A sandlot ball game cost 12-year-old Dale Carriethers his life.

Dale died of a brain injury last night, only a few hours after he collided with 16-year-old Charles Ettler as both sprinted to catch a high fly.

The Ettlerman boy received a broken collarbone in the collision.

Census Easily Taken

ROCKVILLE CENTRE, N.Y., April 4—(P)—Mrs. Marian Atfield, the first census taker to complete her rounds in Nassau county, returned to headquarters here yesterday and told officials:

"No one would talk."

She explained that she found the Long Island area assigned to her contained nothing but a cemetery and an abandoned house.

Files for Renomination

JEFFERSON CITY, April 4—(P)—Congressman Phil J. Welch filed today for renomination on the Democratic ticket.

Heavy Vote in St. Louis County

An unexpectedly heavy vote was rolled up this morning in St. Louis county. There were as many as the polls there by 9 a.m. as there had been by 2 p.m. in last week's special charter election.

It was cloudy in eastern Missouri but no new rain was reported. Temperatures ranged from the upper thirties to the lower forties.

The early vote was light at Columbia, where it was cloudy and damp.

A blanket of snow covered the ground at Moberly this morning. Roads there were reported in pretty bad condition after yesterday's 1.05 inch rainfall. The temperature was near freezing at 8 a.m. and the early balloting about average.

By mid-morning, clouds were breaking up at Jefferson City before a brisk northwest wind.

No Last Minute Forecast

Made Today by James Kirkpatrick Campaign Manager Better Roads Group

By Larry Hall

KANSAS CITY, April 4—(P)—A four cent gasoline tax got a mixed reception at the polls in the early voting in Missouri's special referendum election today.

Voting was heavy in some places where city elections helped pump up interest but light in others.

Kansas City's early voting was light. But election workers were out early in the north side areas dominated by Charles Binaggio and Henry McKissick. There were signs the balloting would pick up there later in the day.

They—like most other leaders of organized Democratic groups—have been supporting Gov. Forrest Smith's plan to double the present two cent tax and use one cent for rural roads.

Early voting in the city of St. Louis also was light. A check of scattered precincts indicated that only about 28,500—representing less than seven per cent of the 386,251 registered voters in the state's largest city—cast ballots during the first four hours.

JEFFERSON CITY, April 4—(P)—A four cent gasoline tax will become effective with a whoosh if Missourians approve it at the polls today.

The state will start collecting the higher tax as of midnight tonight—if Gov. Forrest Smith's sponsored law receives a majority of the votes in today's referendum election.

Attorney General J. E. Taylor held last week that a law referred to the people becomes effective as soon as the results show it passed. It isn't necessary to wait for the official canvass of votes within 40 days after the election, Taylor said.

Skies Clearing

Skies were clearing in most of the state today but yesterday's rain hung on in southeastern Missouri. At Poplar Bluff, morning showers kept the voters away. Five early voters at one Butler county precinct said they voted for the tax increase.

A hot local fight over control of the city council brought out a heavy early turnout at Jefferson City.

The first 50 votes counted in one precinct showed 27 against the tax increase and 23 for it.

James C. Kirkpatrick, campaign manager for the governor's better roads committee, declined to make a last minute forecast.

"It's in the hands of the people now," he said.

The governor plans to listen to radio returns at the committee's headquarters tonight. He wound up his campaign in a final radio speech at Sedalia last night over a statewide network.

An ideal day, crisp and cool, greeted St. Joseph citizens. The early voting there was fairly heavy.

Lines Formed Early

Lines formed as early as 7 a.m. at some Springfield precincts. By 10:35 a.m. the count in three precincts there was 576 against the tax increase and 115 for it.

A school levy election, extension of the city limits and election of a revenue commissioner, a street commissioner and school board members sharpened the interest of Springfield voters.

But outside the city in Greene county the tax increase was the only issue. There the voting was light at mid-morning.

Five precincts had 200 votes by 9:30 a.m. at Nevada—a heavy vote. Roads in that area were reported in good shape after yesterday's rain.

Campaign on At High School

The campaign president of the Junior Student Council got underway Monday with the formal campaign speeches held at 1:00 o'clock in the afternoon. There are six candidates competing: Gene Watts, Lanny Benson, Shirley Kirkpatrick, Jack Isgur, Kenneth Smith, and Larry Lingle.

The Junior Council race is getting started a week before the Senior Council race because of the fact that there are only four candidates in the senior high school. The elections are run on an elimination basis with the top five candidates remaining in the race after the first election, the top two after the second election.

Committee reports were given by the following chairmen: Mrs. W. F. Keyser, club house committee; Mrs. Philip McLaughlin, club house fund; Mrs. H. F. Schrankler, house fund; Mrs. I. H. Reed, social committee; Mrs. Sid Condict, ways and means; Mrs. George Lovercamp, music; Mrs. Arthur M. Hoffman, Red Cross; Mrs. J. C. Services For Holy Week

The Fifth Street Methodist church holy week program will begin with the Wesley Fellowship class meeting and six o'clock dinner Wednesday evening. Following this they will unite with the First Christian church in the mid-week United Lenten Service with the pastor Rev. H. U. Campbell preaching on "The Power to See It Through." The Women's Society of Christian Service will meet in the church Thursday at 10 a. m. and close the meeting with a Youth Program at the luncheon table under the direction of Mrs. H. U. Campbell and assisted by Carol Lance, Dona Marie Robinson, Sandra Ryan, Patricia Robinson and Ruth Ann Botz.

Thursday evening the Merriopaths class meets at the home of Mrs. Frank Fields, 711 West Sixth street. The Maundy Thursday communion service will be observed Thursday morning, afternoon and evening with individuals, families and groups invited to come anytime. The choir will hold its rehearsal Thursday evening, Miss Geraldine Teufel, director. After which members will commune together.

Three Hour Service
The union Good Friday three hour service will be held in the Congregational and Presbyterian church beginning at noon and with seven ministers speaking up on the seven words of the cross. Sunday morning many of the members plan to attend the Easter sunrise service conducted by the Ministerial Alliance at the Drive-In Theatre on Hi-way 60, with Dr. James D. Sill of Warrensburg speaking. Auxiliary to Legion Met

The American Legion Auxiliary to Pettis County Post 16 met on Monday night in Legion hall, 114½ East Fifth street for the regular monthly business session.

Plans were discussed for the annual poppy day sales May 26 and 27, with Mrs. L. V. Morris as chairman.

Information from the Missouri department is that the seventh district of which Sedalia is a unit was the first district to go over the top in membership this year.

The Pan American study, Ecuador, was given by Mrs. A. F. Scott and a program of motion pictures was shown by Mrs. W. C. Askew.

Following the meeting Mrs. F. B. Piper presented Mrs. Karen Crosslin in a number of violin numbers "Ave Maria," "The Mocking Bird" and "Pop Goes the Weasel." She was accompanied by Mrs. Piper at the piano.

Following the program refreshments were served.

Mail Pouches Are Exchanged

SACRAMENTO, Calif., April 4.—(P)—Mail pouches were exchanged yesterday by Sacramento and St. Joseph, Mo., on the 90th anniversary of the founding of the pony express.

But the mail went on wings, not on the hooves of the horses. Mail from St. Joseph was flown to Sacramento in just 10 minutes less than five hours.

Sacramentans sent east a packet of letters from state officials and some real California gold dust.

The horse was not forgotten, however. A pony ridden by Oren Baker carried a packet from Lt. Gov. Goodwin J. Knight in downtown Sacramento to the airport.

But from re to St. Joe it was quite a different kind of horse power than that which used to bring Missouri mail here in seven days.

Movietone to Show Academy Winners

by Mrs. H. O. Foraker.

A talk, "Dedication of Life" will be given by Mrs. Luther Landis. There will be a board meeting for all chairmen at 11:30 o'clock.

Disappears at Sea

Theodore Donay

A man who vanished at sea off the southern California coast Saturday night has been identified as Theodore Donay (above), 51, of Detroit. Donay went to prison in 1943 for helping the escape of a German flier. A picture of Donay was identified by a boat rental dock attendant as the man who rented a boat from him. Donay did not return and his deserted boat was found by the coast guard. The disappearance occurred a few hours before a mystery submarine was sighted off the southern California coast. Emergency Board Recommends Pay Boost

WASHINGTON, April 4—(AP)—A presidential emergency board has recommended a 45-cent-a-day pay boost for engineers and firemen of the St. Louis Terminal Railroad Association. It proposed the increase be made effective as of last December 1.

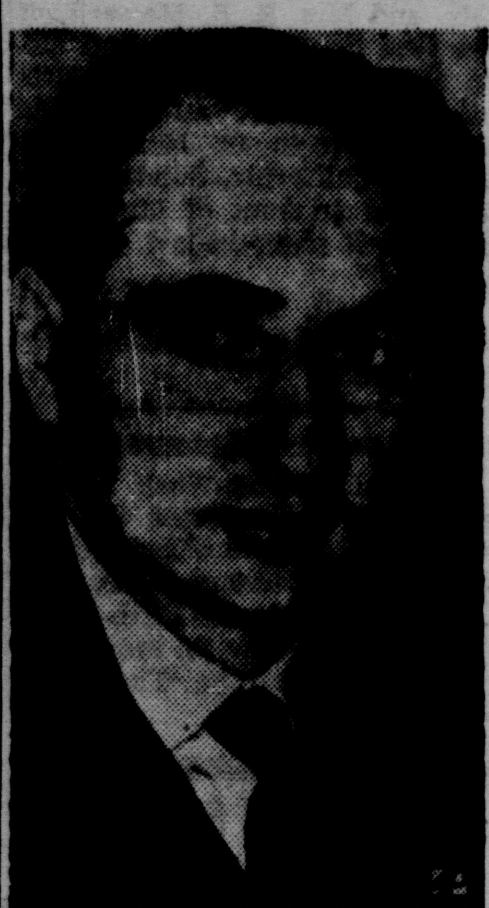

The Terminal Association and the Brotherhoods of Locomotive Engineers and Firemen have until May 1 to consider the recommendation. If they fail to agree by then, the unions can strike.

The emergency board's report was sent to the White House Saturday and released there today.

Sister of St. Louis Postmaster Dies

ST. LOUIS, April 4—(AP)—Miss Mayme Dickmann, sister of Postmaster Bernard F. Dickmann, died of heart disease last night at the age of 68. Funeral services will be held at 9:30 a.m. tomorrow.

Political Storm Center

John Strachey (above), who has been under fire from a portion of the British press since he was named British war minister, is now the center of an international political storm. Strachey has denied he ever was a Communist, but at The Hague Atlantic Pact talks it was reported that Anglo-American defense chiefs had agreed to keep the highly confidential military secrets from him. His boss, defense minister Emanuel Shinwell said there "isn't a word of truth" in the report, but the conservative London Daily Mail said Prime Minister Attlee will be questioned in Commons about it. Evicted Man on 'Soapbox Tour'

UNIONTOWN, Pa., April 4—(AP)—Retired coal miner George M. Livengood, evicted from his home for back rent, today planned what he called "a soapbox tour" against United Mine Workers welfare fund trustees.

Livengood, 55, has a federal court suit pending in Washington, D.C., in which he charges the trustees of the welfare and pension fund with "wrongful dissipation" of the group's money. He plans to air the charges in his tour of the country's coal fields.

Livengood, who was expelled from the union after filing the suit formerly receiving a pension from the UMW, Pension payments were suspended last year by the fund's trustees because reserves dropped to a dangerous point.

The victim of a heart ailment, Livengood took his wife and two children to a Uniontown hotel last night with what he said was his last \$7.

"I guess we'll be sleeping in our old car from now on," he declared.

Find Son After 30-Year Hunt

DENVER, April 4—(AP)—A Denver couple's 30-year search for their missing son has ended in success.

Mr. and Mrs. George G. Hill said last night they located their 35-year-old son, James Curtis Hill, in Reno, Nev., through the Veterans Administration.

Mrs. Hill said her mother left with the boy when he was five after an argument in Macomb, Ill., where they lived in 1920. Ever since then, she said, she has been searching for him without success.

The son wrote his parents that he left his grandparents and struck out on his own shortly after graduating from high school in 1933.

He plans to rejoin his parents here.

Two Children Held Hostage For Rent

WEIRTON, W. Va., April 4—(AP)—Because their parents were behind \$19 on the rent, two little girls were held hostage by the landlady for two weeks, Sheriff's deputies reported today.

They removed the girls, aged four and two, today from the home of Mrs. Chester Chance of neighboring Cross Creek Township and gave them back to their father and mother, Mr. and Mrs. J. R. Chance.

Brooke County Sheriff Dick Hogg told this story: The R. J. Chances had been rooming in the house. R. and Chester Chance are brothers. When they got a home of their own here, they moved.

But Mrs. Chester Chance insisted that they couldn't have their own children back until they paid back rent. She kept them for two weeks.

Kroger Stores in St. Louis Still Closed

ST. LOUIS, April 4—(AP)—The Kroger stores in the St. Louis area remained closed today by a ten-day-old strike of 100 AFL delivery truck drivers employed by the company.

A meeting of the union truck drivers was scheduled this afternoon. Both company and union officials declined to predict whether today's meeting might mean an end to the strike.

The drivers have asked for a three-hour reduction in their work week with no reduction in pay.

Important Events In World News

WASHINGTON, April 4—(AP)—The Economic Cooperation Administration (ECA) figured today that the average Western European now eats at the rate of 2,800 calories daily. The U.S. average is about 3,300.

ECA said the European diet is heavy on the bread-and-potatoes side, with meats, fats and sugar still scarcer than they were before World War II.

PHILADELPHIA, April 4—(AP)—A page from the Betsy Ross Bible, stolen from the historic flag house, was recovered today.

Theft of the page, bearing original records of the Betsy Ross family, was reported yesterday. But police disclosed that actually it was stolen last Christmas by a 15-year-old high school student.

Detective Lieutenant Frank May said the boy disclosed the theft after it was made public. May said the page was insured for \$15,000.

WASHINGTON, April 4—(AP)—Senator Jenner (R-Ind.) today accused Secretary of State Acheson of a "pro-communist betrayal of the American people" in the allied dismantling of German industrial plants.

The Indiana Republican told the Senate that Acheson has led this country "into communist booby traps all over the world." But he centered his attack on the State Department's policies in Germany.

WASHINGTON, April 4—(AP)—Senator Taft today quoted Herbert Hoover as saying the Hoover Commission never recommended wiping out the independent status of the National Labor Relations Board general counsel.

The Ohio Republican senator contends President Truman's proposed plan to reorganize the NLRB goes far beyond recommendations of the Hoover Commission for re-vamping the executive branch of the government.

Taft appeared before the Senate Expenditures committee which is considering the Truman reorganization proposal along with a resolution by Taft calling on the Senate to disapprove it.

Taft lashed out at the Truman proposal, calling it "political" and designed to "nullify" the Taft-Hartley labor law, of which Taft was a co-sponsor.

Explanations And Opinions On Business

(Continued From Page One)

income and individual "liquid asset" are stabilized while installment buying goes on rising and that can lead to danger.

The securities and exchange commission reports that liquid savings last year came to \$4.3 billion, unchanged from the year before. The SEC raises an eyebrow, however, at the fact that "the average American" saved one percent of his net income in 1940 while in 1949 he was putting away six percent. Liquid savings include cash and bank deposits, investments in savings and loan associations, insurance and securities.

Drop in Bank Deposits Bank statements out today in New York may throw some light on this trend. Most of them show a drop in deposits. Income tax payments could account for a large part of that.

Department store sales in New York are reported today 2.5 percent lower this March than last, but for the nation as a whole the Federal Reserve Board reports sales running neck and neck with last year. Weather conditions have a lot to do with the variations. And department store sales and total retail sales are two different things.

THE PRUDENTIAL INSURANCE COMPANY OF AMERICA

is happy to announce

A NEW HOME OFFICE

*—to better serve
the seven great
states of the*

HEARTLAND OF AMERICA

Yes, The Prudential Insurance Company of America is going to make the Heartland home—by establishing a home office in your region to serve you more efficiently.

In this modern home office in HOUSTON, TEXAS, will be centralized all our facilities for serving the States of Texas, Oklahoma, Arkansas, Louisiana, Mississippi, Missouri, and Kansas.

Our objective in establishing this office is to provide even better life insurance service to your community. It will also enable us to do a still better job of making Prudential dollars available to industry, and to individuals interested in owning their own homes, ranches, or farms.

This new Home Office will be the third of its kind announced by THE PRUDENTIAL. In 1948 the Western Home Office was opened in Los Angeles to administer the Company's business in the 11 western states and Hawaii. A similar office will be opened soon in Toronto to handle our Canadian business.

The Prudential was founded in 1875 as The Prudential Friendly Society to bring life insurance protection to the working man on terms he could afford.

As the original name implied, it was a friendly company whose operations were geared to the needs of its policyholders. Throughout our 75 years of service, we have kept it that way. And today, as we celebrate our 75th Anniversary year, one in every six persons in the United States is a Prudential policyholder.

Our decision to place a home office in your region is further tangible proof of our determination that THE PRUDENTIAL shall never grow away from the people it was created to serve.

The Heartland of America is the nation's biggest bright spot. During the last 10 years, its growth... in population... industry... manufacturing... farming... finance... has been far greater than the rest of the United States.

The Prudential is proud of its contribution to this progress through its investments in homes, farms, ranches, industries, which now total more than 750 million dollars.

The establishment of this new Home Office will enable us to play an even more vital part in the future progress of this great Region.

• The Washington Merry-Go-Round Former Presidents Would Agree With Truman on Withholding Loyalty Files

By Drew Pearson

WASHINGTON.—When it comes to turning
over loyalty files to the Senate, the Republicans
are up against the fact that William Howard
Taft, father of their top leader, sided against
him and with Harry Truman. So did six other
presidents of the United States and a House
judiciary committee.

President George Washington was the first to
say flatly "no" in 1796 when he refused to
give the House a copy of instructions to U.S.
diplomats who had negotiated a treaty with
Great Britain. George Washington said: "As it
is essential to the due administration of the
government that the boundaries fixed by the
Constitution should be preserved, a just regard
to the Constitution and to the duty of my office
forbids a compliance with your request."

President Thomas Jefferson continued the
precedent by refusing to allow two cabinet
members to supply documents at the Aaron Burr
trial. President James Monroe also declined to
give up papers about the conduct of naval officers,
while Andrew Jackson was ordered by the
Senate to supply a memo read by him to his
cabinet on removal of public money from the
Bank of the United States. He refused.

Later President Grover Cleveland backed up
his attorney general who would not give the
Senate documents on the removal of a district
attorney.

President John Tyler even sent a message
to Congress spelling out his reasons for refusing
to give War Department reports on Cherokee
Indians to the House of Representatives.

Senator Taft's father spelled out the issue
quite clearly, though it was after he left the
White House. "The President," he said, "is re-
quired by the Constitution from time to time
to give Congress information on the state of the
union. But this does not enable Congress or
either House to elicit from him confidential in-
formation which he has acquired for the purpose
of enabling him to discharge his constitutional
duties, if he does not deem the disclosure of
such information prudent or in the public
interest."

In 1879 the House Judiciary committee even
rebuked an investigating committee for trying
to pry out State Department records regarding
the conduct of George F. Seward, a consul-
general in China.

"Under our theory of government," the judi-
ciary committee ruled, "all the records of the
executive departments are under control of the
President. Whenever the President has returned
(as sometimes he has) that in his judgment it
was not consistent with the public interest to
give the House such information, no further
proceedings have ever been taken to compel
the production of such information. Indeed, upon
principle, it would seem this must be so. The
mischievous of the House calling for documents
might easily be a very great one."

Blocking Asiatic Communism

This column recently secured a copy of a
letter written to Prime Minister Nehru of India
by the living Buddha of Western Mongolia, now
a refugee in Baltimore living under the wing
of Owen Lattimore, the Johns Hopkins professor
whom Senator McCarthy has charged with be-
ing the top Communist spy in the United States.

India has long been considered by the United
States as the key country in blocking the spread
of Communism, which is one reason we gave
Prime Minister Nehru the royal-carpet treat-
ment on his visit here last fall. The living
Buddha seems to have similar views. Anyway
here is the letter sent to Nehru by the man
whom "top Communist spy" Lattimore brought to
the U.S.A.:

"The teachings of Communism, expounded
and propagated by Lenin, have spread widely
and now prevail over more than four-fifths of
China," the living Buddha wrote. "The remain-
ing one-fifth is about to encounter danger, and
the terror of Communism seems to be approach-
ing near to Tibet. The road is difficult for a
military offensive against Tibet, yet if they were
able to win the mind of Tibet, they would with
small numbers be able to dominate large num-
bers. . . . I pray earnestly that your honor, with
your vast understanding, will protect Tibet and
show that country and teach it how to proceed
and to understand."

"Mongolia and Tibet are alike in religious
faith," the living Buddha continued. "Moreover,
the fundamental policy of Communism is not to
make use of any religion, but wherever its
teachings may reach, to extinguish immediately
the religion of that land. In outer and inner
Mongolia now, religion is vanishing altogether."

"If Mongols fleeing from Red terror should
reach your honored country of India, I pray
with profound faith that they may be aided
and protected."

Battle Over Gas

Usually fair-minded Speaker Sam Rayburn
revived memories of whip-cracking Uncle Joe
Cannon, by his haste to get House approval of
the Kerr gas bill boosting natural gas prices.

Rayburn had colleagues dizzy with his deft
backstage maneuvers to speed a Senate version
of the bill through the House.

However, Congressmen Ray Madden of In-
diana and John McSweeney of Ohio of the Rules

committee furiously objected to the "star-
chamber" proceedings and the fact that Ray-
burn arranged the stunts meeting on sudden
notice while liberal chairman Adolph Sabath
was out of town.

The speaker, whose Texas gas friends are
clamoring for action, wouldn't even agree to
delay the meeting for a day, to enable Chairman
Sabath to return to Washington. So the Rules
committee meeting was called to order by Dixie-
crat Acting Chairman Gene Cox of Georgia,
poker-playing partner of the speaker, which
caused Madden to remark:

"If I didn't see the sun outside, I'd think this
meeting was being held in the dead of night.
I just learned accidentally about ten minutes
ago that we were to be called into session."

"Why all the secrecy?" continued the Indiana
Democrat "And why hasn't the chairman been
notified? He'd be here if he was given proper
notice that this bill was to be considered. I
object to this unorthodox procedure."

When Cox explained that he had called the
meeting "at the instance of the leadership,"
Madden fired back:

"Well, I'm still objecting to further procedure.
Here's a bill that has been widely publicized
as a measure that will take 100 million dollars
out of the pockets of consumers. We ought to
have more chance to study it."

In the showdown vote all the committee Re-
publicans and all the Democrats, except Mad-
den and McSweeney, supported Rayburn and
the natural-gas interests. It was a golden op-
portunity for Clarence Brown of Ohio and the
other committee Republicans to show a little
independence—and also put their party on
record as for the consumer in the coming cam-
paign. But as usual they tagged behind the
Dixiecrats.

'Ike's' Warning on Defense Measures Should be Heeded

By Bruce Blossart

For many weeks charges have been flying
that our military defenses are not being made
strong enough to give us even minimum pro-
tection in event of a hostile attack.

To all these Secretary of Defense Louis John-
son has replied that we are truly in sound shape.
But mostly he has met specific criticisms with
broad generalities.

The defense debate took a new turn, however,
when Gen. Dwight D. Eisenhower jumped in.
He said the country has disarmed in some direc-
tions beyond the point he considers safe.

With Eisenhower speaking out, the dissent
suddenly acquired greater weight. For it was
recognized that "Ike" is in a far better position
to know the facts than all the other critics thus
far heard from.

Johnson immediately repeated his insistence
that our defenses are adequate, and declared
that Eisenhower himself had been a principal
drafter of the \$13,000,000,000 military budget
now before Congress. He said the general had
not objected to proposed cuts.

Congressional leaders, no less aware of Eisen-
hower's role in preparing the arms budget,
nevertheless felt he might have had reason to
change his appraisal of its adequacy. So they
called him to the capital to hear his views.

"Ike" told the Senate Appropriations Com-
mittee he thinks the country is taking chances
by not spending more for the Air Force, for
anti-submarine warfare and for the defense of
Alaska, our northwestern outpost close to the
Soviet Union. He advised voting another \$500-
000,000 for defense this year.

It's clear from his testimony that the Air
Force is his chief worry. He said he has been
informed proposed outlays for fiscal 1951 won't
maintain a minimum, modernized force of 48
groups in being.

This is the very issue on which several other
critics have fastened. The crucial question is
not how many planes we have or are buying,
but how fit they are for duty. If the planes we
have are being outmoded by technical advances
faster than we replace them, then the net effect
obviously is to weaken our air strength.

If 48 groups are to be the measure of mini-
mum protection, the planes comprising that
force must be kept up to date. It's no good say-
ing there'll be as many planes in 48 groups as
were originally called for in the 70 groups
sought by Congress and certain impartial in-
vestigators. The point is: What kind of planes?

If Eisenhower is worried on this score, Con-
gress and all the rest of us ought to be. And
the lawmakers' proposal to add \$650,000,000 to
the arms budget, more than the general re-
quested, should be approved to assure that the
Air Force keeps above the line of minimum
safety.

Not a Politician's Job

Signs are coming out of Washington that
Chief Justice Fred Vinson continues to play an
active part as an adviser to President Truman.

This seems highly unfortunate for the prestige
and independence of the Supreme Court, which
has suffered heavy blows in the last dozen years.

The high court cannot be entirely aloof from
the political scene, for it must fashion a legal
philosophy that can be molded to fit changing
social realities as they are reflected in law-
making and executive policy.

But that is an attitude wholly apart from one
which allows individual members of the court,
and especially the chief justice, to serve as pri-
vate political counselors to the Administration.

If Mr. Truman considers Vinson's guidance
indispensable to him, he should appoint him
as one of his top assistants and name as chief
justice a man who will devote himself com-
pletely to the job of being the nation's most
important judge. The two functions don't mix.

• So They Say

Americans now spend \$8,800,000,000 a year to
drink 2,928,000,000 gallons of liquor, wine and
beer, as compared with \$2,080,000,000 for
1,331,000,000 gallons in 1934, the first completely
wet year after prohibition.

—Mrs. D. Leigh Colvin, president of the Wom-
en's Christian Temperance Union.

—Why don't we say, "How do we solve it?"
instead of "The world is going to hell in a
hand basket."

—Gen. Dwight Eisenhower, urging greater
optimism on the part of Americans.

FASHIONED FOR FAITH AND NOT FOR FEAR

Matt. 6:30; 9:2; Rom. 14:23; Gal. 2:20

WITHOUT FAITH YOU CANNOT MEET LIFE'S EMERGENCIES

To gather up the meditation of yesterday: we are inwardly
fashioned for faith—faith is healing; doubt and fear are de-
stroying. Insurance statistics say that people who have annuities
live on an average five or six years longer than those who do
not have any. The annuity relieves them from anxiety re-
garding security in old age, and the very fact of having that
relief prolongs life.

(2) I see that I cannot meet life's emergencies unless I
have confidence and faith. A doctor told me of this procedure
in the Mayo Clinic: "A patient who was being prepared
for one of the wonderful new operations for reducing high blood
pressure had passed every preliminary examination successfully
and thought no more was to follow. She was mistaken. Be-
fore the surgeon would operate, the patient must pass the test
which would make sure that no spiritual or mental trouble was
bringing on the chronic headaches and hypertension. The doc-
tor, who was firm and would not be sidetracked, questioned the
patient closely as to her home life, her married happiness, her
religious state. Was she happy? Worried over money? Was
she satisfied with her home conditions? Her religion? Until
she could pass that test she was not ready to stand the opera-
tion, for the doctors knew she could collapse from within in
spite of all scientific efforts if there were conflict and worry
at the citadel of her life." A schoolteacher was suffering from
heart trouble, her heart beating so loud and rapidly that at the
least effort it "seemed to jump out of her body." The doctors
found no physical reason for her heart condition, but they
discovered that she was worried over a lump in her breast;
she was sure cancer was developing there. When she was
happy and relieved. The heart became normal, and she is
happy and efficient in her work. The fear and worry had
caused functional disturbance. The disturbance was real, but
it had been caused by an unreal fear.

O God, I see that I am the enemy of my possibilities if I
admit inward fear and anxiety. I throw disturbance into my
organs, upset my brain cells, tire out my faithful heart, and
paralyze my constructive energies. I am the enemy of myself.
Forgive me. In Jesus' name. Amen.

SAN FRANCISCO —(AP)—An
ambitious tree-planting program
has been undertaken by the Chi-
nese Communists. A broadcast
from the Communist capital in
Peiping says 400,000,000 trees will
be planted and about 740,000 acres
of land will be enclosed as na-
tional forest preserves.

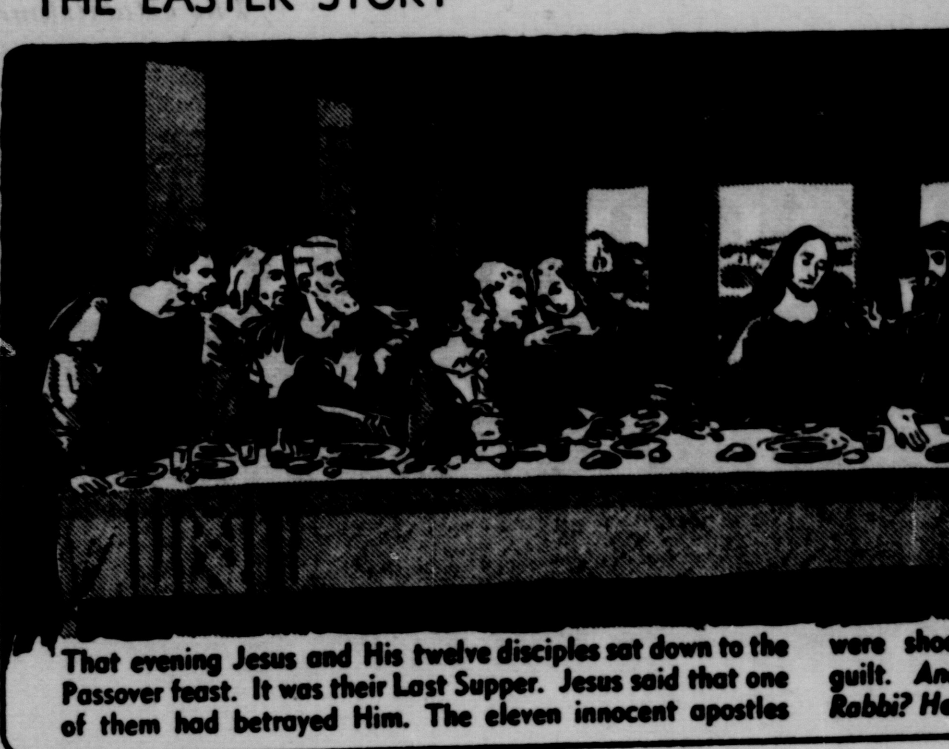

The Communist minister of for-
eignty is quoted as saying that in
addition to lumber shortage,
China's lack of trees is respon-
sible for disastrous floods and
sandstorms.

THE EASTER STORY

That evening Jesus and His twelve disciples sat down to the
Passover feast. It was their Last Supper. Jesus said that one
of them had betrayed Him. The eleven innocent apostles
were shocked, and wondered who among them bore the
guilt. And Judas that betrayed him, answering, said: Is it I,
Rabbi? He said to him: Thou hast said it. (Matt. 26:25)

CLEMENCY leaned back on
the wooden seat of the
waiting room of the Belgra-
via Employment agency and
wondered why it was neces-
sary for prospective employees
to sit on anything quite so
hard.

The room was bare and
austere; decorated, though
that hardly seemed the word,
by a large square mirror. It
was probably put there on
the wall as a hint to those be-
ing called upon to interview
important clients of the firm
to make sure that they re-
presented a scrupulously neat
appearance.

Clemency looked at her reflec-
tion in it, and the reflection looked
back at her without any of the
satisfaction which an ornamental
young woman of 22 has the right
to feel, with the knowledge that
she is rather charming to look at.
Up to now, this particular young
woman had found good looks
rather more of a liability than an
asset. Quite a number of women
seemed to prefer their children's
nursery governess to be elderly
and not so good looking.

She was conscious of mounting
nervousness. If she didn't get a
job soon she would have to go
home, and that was the last thing
she wanted to happen. The little
flower-decked railway station at
Belsham Lacy, the country town
in the West Country of England
where her father's legal practice
was established, seemed like a
prison gate.

At that moment the door of the
inner sanctuary opened and the
tall, fair girl who had gone in last
came out, shutting the door behind
her.

Clemency glanced at her, hop-
ing to ask the outcome of the in-
terview to which the girl had been
called 10 minutes ago. Their eyes
met, as though in answer to her
thought, the other passed beside
her.

"No luck. She wanted me to go
abroad, but I don't intend to do
myself up. When my fiancé comes
back from Germany we'll be get-
ting married."

THE office door opened again
and Miss Simson, the proprie-
tress of the agency, looked out.

"Miss Norton," she beckoned.
Clemency rose at once to obey
the summons, with a smile at the
air girl.

Miss Simson drew the door she
was holding a little closer. "Just
a minute," she said in a low voice.
"It's no use wasting any more of
my client's time unless you are
willing to consider a post abroad
—North Africa?"

"North Africa? Farther than
Clemency had ever hoped to go.
Visions of things she had always
yearned after shone brilliantly out.
Her heart gave a little excited leap,
but her voice—she had a particu-
larly pretty speaking voice—was
calm as she answered:

"I've no objection to going any-
where abroad."

"Good," Miss Simson motioned
her to follow. As she entered the
inner office she said: "I don't think
we need despair. Mrs. Amberley.
Here is the other young woman
about whom I spoke. I think she
would suit you."

"That sounds too good to be
true." There was a touch of acidity
in the slow, slightly drawing
voice.

Clemency's first impressions of
Mrs. Amberley were that she
looked as though she had stepped
out of the pages of a fashion mag-
azine and that she was one of the
most breath-takingly lovely crea-
tures she had ever seen. She had
dark red hair and the flawless skin
that goes with it. The whole effect
was so dazzling that Clemency did
not attempt to analyze them.

Miss Simson said: "I'll leave you

Clemency noted that Syrie Amberley had a distinct suggestion
of bad temper about her lips.

to talk," and disappeared through
another door on the other side of
the room.

MRS. AMBERLEY lit a cigaret
as she appraised Clemency.
Then: "Are you sure you are will-
ing to go to North Africa?" she
asked. "Make up your mind defi-
nitely before we go any further.
It would be too crashingly boring
to find out all about you and then
have you say, like that idiot who
just left, that you don't want to
travel."

"On the contrary," Clemency re-
plied quietly, "there is nothing I'd
like better than to travel."

"Good," Clemency's prospective
employer's smile seemed spontane-
ous and brilliant, although it did
not change her eyes. They were
strange eyes, almond shaped with
an uncommon shade of hazel-
green, with a line of gold around
the edge of the iris.

She continued: "I've one little
girl, nearly four years old. She's
rather out of hand at present. I
brought her back for a tonsil op-
eration, and her governess with
her. I thought the governess would
go back with me—but she sud-
denly decided that she must stay
here. A most abominably dirty
trick—she knew we were due to
leave next week, and she let me
down at the last moment. I don't
think any reference she gets from
me will secure her another job!"
Mrs. Amberley's mouth set,
and Clemency noted that when she
was not smiling there was a distinct
suggestion of bad temper, almost
of cruelty, about the line of those
red lips.

Realizing for the first time that
her prospective employer was
standing, Syrie said carelessly: "Do
sit down. I hate looking up at
people when I'm talking to them,"
and as she was obeyed: "I suppose
you've looked after children be-
fore?"

"No, but I'm very fond of chil-
dren and good with them. The
matron of the school will give me
a reference. And I looked after a
friend's children for several weeks
last summer."

"Syrie's laugh was brittle. "What
about your family? Frankly, re-
lations are an absolute curse."
"My family would not interfere
with me," said Clemency quietly.
"My father is a solicitor in Devon-
shire where his father and grand-
father practiced before him. He
is married again and I prefer not
to live at home."

Syrie looked at her more close-
ly. The girl was pretty—unusual,
too, that golden hair with those
enormous brown expressive eyes.
Syrie had no objection to the good
looks of any girl who was not
likely to trespass on her domain—
and Baba's governess would hard-
ly be likely to do that. As for the
men of the household—if only Jon

could tell in front of him just what he
did that burned you up.

Don't wait for him to ask you
to dance. Ask him. If he hesi-
tates tell him he must be getting
old.

Just when he seems to be start-
ing to have a good time announce
to your hostess that you must be
going. No need to consult him
first to find out if he is ready to
leave.

One other thing. If he makes
a faux pas—be sure to call every-
one's attention to it. That shows
that at least YOU know the proper
thing to do—even if he doesn't.

would show some interest in a
pretty face, it might help to solve
a problem. And Piers—Syrie's
eyes were suddenly secretive.

Mrs. Amberley's soft, slow voice
said: "We live on an oasis near a
place called El Barata—about 30
miles from Biskra. But 30 miles
in the desert is just nothing. The
house belongs to my husband's
brother Piers Amberley. It be-
longed originally to a sheik and
was left to Piers by an eccentric
relative. We went there because
my husband had been ill." An
odd, furtive expression crossed the
beautiful face and was gone in
an instant. "We'll probably stay
there. Piers can't bear his younger
brother out of his sight." She
puffed on her cigaret.

MRS. AMBERLEY drummed the
tips of her exquisitely man-
icured nails on the table. "What
I want," she said frankly, "is some-
one who isn't afraid of responsi-
bility and who will be able to take
Baba off my hands. Of course, I'm
fond of the child, although I'd
rather have had a boy if I had to
have one. Jon is sentimental over
infants. He ought to have married
a girl who would have crowds of
the creatures and gone gooey over
them. However"—she shrugged—"I
don't intend to do anything
about that. I'm not shocking you?"

"If people don't like children,
they just don't," said Clemency.
"Exactly. You and Baba have
one wing of the house practically
to yourselves and your own court-
yard. There's a car for your use
when you want to go out and can
arrange time off. We have an
Arab nursery maid who's quite
good. I'd like you to agree to stay
for two years."

"You must want me to leave
long before that!"

"Not as long as you carry out
the duties I have outlined. The
salary is 200 pounds a year."

"It sounds wonderful."

"One more thing. Are you en-
gaged or anything like that?"

"Nothing."

"You won't suddenly want to
get married then?"

"I should think it the most un-
likely thing in the world."

"Then, will you be ready a week
from today? And can you come
and see me at the Savoy tomor-
row at 4?"

"If you care to take up my re-
ferences quickly, I could start to-
morrow," said Clemency.

"Oh, bother the references. I'm
sure you won't disappear with my
jewelry." Syrie's laugh could be
pretty, though it was a little
harsh. "Come tomorrow. As a
matter of fact, I want to go out of
town for the week-end and if you
were with Baba, it would be a re-
lief. Ah, what's your name?"

"Norton. Clemency Norton."

Here's How to Spoil The Party For Your Husband

If you want your husband to
wish he had gone to the party
without you, just choose any one
of these tricks, all of which I've
seen women use.

When he's off in a corner earn-
estly talking with several other
men, join the group. Butt in and
say exactly what you think about
the matter under discussion.

If you don't think you're get-
ting enough attention, start in be-
ing the life of the party. Tell a
risque story, put your arm around
some other woman's husband, or
decide to show everybody the new
reducing exercise you've just
learned.

When your husband starts to
tell his favorite story, jump right
in and help him out. Or if you'd
rather say, with an aggravated
groan: "You aren't going to tell
that one again, are you, Jim?"

Make Him Dance
Attendance On You

Don't let him relax. Keep him
waiting on you and running er-
rands. If you want to check up
to see how the baby-sitter is get-
ting along, order him to do it.

If you've got a bone to pick with
him, do it at the party, confident
that he won't tell you off in front
of the other guests. One really
annoying way of doing this is to

tell in front of him just what he
did that burned you up.

Don't wait for him to ask you
to dance. Ask him. If he hesi-
tates tell him he must be getting
old.

Just when he seems to be start-
ing to have a good time announce
to your hostess that you must be
going. No need to consult him
first to find out if he is ready to
leave.

One other thing. If he makes
a faux pas—be sure to call every-
one's attention to it. That shows
that at least YOU know the proper
thing to do—even if he doesn't.

Total Demand Deposits Same

ST. LOUIS, April 4—(P)—Total demand deposits in Eighth Federal Reserve District banks remained at about the same level at this time last year despite a drop in farmers' accounts, the monthly review of the Federal Reserve Bank of St. Louis said Monday.

Demand deposit balances of financial businesses and city residents increased to offset drops in balances of farmers and non-financial businesses in the region.

The total at the end of January was \$4,200,000,000, the report stated.

The review said: "Rural banks received the lion's share of the demand deposit growth in the war period. In the first two postwar years they received diminishing shares of the expansion in such deposits and in the last two years suffered losses in demand deposit volume."

Deposit balances held up better in areas where agriculture and industry are diversified and labor income is a relatively large part of total income, the bank added.

In the large cities gains were most pronounced at St. Louis, Little Rock and Memphis, the review said.

Prison 30 To 35 Years To Kidnaper

CAMDEN, N. J., April 4—(P)—Frank La Salle, 52, former convict and unemployed auto mechanic, pleaded guilty today to a charge of kidnaping a 13-year-old girl, and was sent to prison for 30 to 35 years.

The plea, which came as a surprise, followed by slightly less than two weeks, La Salle's arrest in San Jose, Calif.

His apprehension was prompted by an urgent message from the girl—Sally Horner—to relatives here imploring "send the FBI for me, please."

La Salle was sentenced under the state's so-called "little Lindbergh" law enacted after the Lindbergh baby kidnaping March 1, 1932 at Flemington, N. J.

Camden County Prosecutor Mitchell H. Cohen said the girl spent 21 months with La Salle on cross-country travels.

In the short hearing before Judge Rocco Palese, the prosecutor called the gray-haired defendant "a moral leper" and added: "Mothers throughout the country will give a sigh of relief to know that a man of this type is safely in prison."

Silver Dollars Buys A Tractor

Employees of the Montgomery Ward and Company farm store were rather startled late Monday afternoon when John M. Earp, Jr., 14, and his father John M. Earp, Sr., walked in and plunked down a little over \$290 in silver dollars for a 1½-horse power tractor.

John had been saving his silver dollars since he was nine years of age. At that time his sister, Mrs. Russell T. Hull of Kansas City was employed in the atomic energy plant in Alamogordo, N. Mex., and

sent him the first nine silver dollars as a birthday present. That was five years ago and since then he has been adding to his savings regularly.

He is the son of Mr. and Mrs. John M. Earp Sr., of Versailles. His father is postmaster there and formerly publisher of the Versailles Leader. His father said that John Jr., would employ the tractor in the garden and on mowing lawns. The machine has plow, mower and disc attachments.

John, Jr., is a student in the Versailles public school.

Gets Wife To Safety Then Dies In Blaze

MARSHALL, Mo., April 4—(P)—Walter A. Davenport, 67, lost his life in a home fire after he had helped his wife to safety.

The fire, believed to have been caused by an overheated stove at the Davenport home southwest of here Sunday, blocked the escape of the couple through the only door of the home. Davenport helped his wife through a window and then collapsed in the path of the flames.

Singer Granted Divorce From Jack Carson

LOS ANGELES, April 4—(P)—Singer Kay St. Germain won a

divorce Monday from comedian Jack Carson.

Under terms of a property settlement, she gets custody of their two children, \$50,000 cash and \$15,000 a year, tax free.

She said Carson deserted her four years ago.

"Jack told me he didn't love me and wanted to be free. He got mean and criticized everything I did."

Carson did not appear. They were married in 1940.

Divorce Is Petitioned

John R. Blackston of Pettis county filed suit for divorce in the circuit clerk's office Monday afternoon against Effie B. Blackston.

The petition states that the couple was married July 9, 1948 and that they separated in April of 1950.

The plaintiff alleges general indignities.

Attorney for the plaintiff is Fred F. Wesner.

Helen Hayes Shows Russians Up in Her New Play

By Mark Barron
NEW YORK, April 1—(AP)—Helen Hayes, who has inspired more sentiment and tears in a single evening devoted to a star since Sarah Bernhardt, enraptured a Broadway audience this week with the arrival of an almost new American play, "The Wisteria Trees."

In "The Wisteria Trees" must be considerably embarrassing to the Russians because she takes a Chekhov play, performs it in an American idiom and setting and makes it seem human and understanding; and with a tender heart.

Joshua Logan has taken Anton Chekhov's "The Cherry Orchard" and rewritten it into this new Broadway play which now appears as "The Wisteria Trees."

As for the difference between "The Cherry Orchard" and "The Wisteria Trees," there is this evidence of the spoken word from author-director Logan:

Unusual Piece of Literature
"I believe that 'The Cherry Orchard' is an extraordinary, universal and indestructible piece of literature. 'The Wisteria Trees' is suggested by a masterpiece, but it is not a translation, nor even an adaptation of the Chekhov play."

Undoubtedly and understandably, it is strange that a Princeton University student like Logan and a girl plucked from under the peach trees like Helen Hayes should be doing a Russian play which has had its locale and characters transferred into the tropical clime of Louisiana.

This is the way it happened: Logan, while at Princeton, was given a scholarship at Stanislavsky's Moscow art theater and there he saw "The Cherry Orchard." Logan was a Louisiana boy, brought up on one of those lush, poverty-stricken plantations. And in Russia, he immediately began transplanting the scenes of "The Cherry Orchard" back into his boyhood experiences on a Louisiana plantation and from that came "The Wisteria Trees."

Story of Drama
In this drama which Helen Hayes plays with the stature of the great actress she is, Logan has shifted his scene from a closed-door Russian house to a family mansion on the Wisteria plantation in Louisiana. There the family has been living luxuriously, no one having to bother about work. Now they have arrived at a time where they must seek work, a day to day job. And the one thing they are complaining about is that the Wisteria trees will have to be cut down so that the land can be cut up into small shares where truck gardens can be grown.

Has a Triumph
This is the situation that Miss Hayes, as the high born Lucy Andree Ransdell, faces when it is time for her to take over the estate, to face the inevitability of foreclosure and to tell her several high born relatives that they must get out and scrub floors or make a living in any way they can find employment.

Miss Hayes has in "The Wisteria Trees" a triumph, a triumph both for the theater and for herself. She has able support in Kent Smith, Walter Abel and Peggy

Van Natta Club Meeting

The Van Natta Extension club met on March 8, at the home of Mrs. Wesley Harding.

A contributive luncheon was served at the noon hour followed by the regular business session which was opened by singing "A Song of Peace," and repeating the Club Collect.

Members responded to roll call by telling of "A Secret Ambition I Once Had." There were five visitors present, Mrs. Roy Alexander, Mrs. Cecil Ferrigues and Mrs. Dewey Geiser.

The club voted to make a donation to the Cancer Fund.

Mrs. Arthur Turner gave a reading, "Adolescence."

The president, Mrs. George Gorell gave a demonstration on how to make covered buttons.

The meeting was then turned over to the Food Leaders, Mrs. George Bucholz and Mrs. Luther Henley who had attended the recent Leader Training meeting on "Pepper Uppers for Dull Meals." They gave interesting talks and demonstrated their skill by serving, along with the luncheon, dishes they had prepared at the meeting.

Following the business meeting the game leader, Mrs. Edward Nelson, led the group in some games and contests.

The April meeting will be held at the home of Mrs. Lee Hudson in LaMonte.

The Red war against rebellion is being stepped up in Eastern Europe.

We return to this subject because it is a vital aspect of the Soviet crusade to Communize the world. Success or failure of the Communist offensive may hinge largely on this front.

Ten high-ranking Catholic clergymen have gone on trial in Prague, charged with high treason and spying for the Vatican. A Vatican informant in Rome says this indicates that the last of the faithful Roman Catholic leaders in Czechoslovakia "are about to be suppressed."

This comes as the international court of justice at the Hague rules in effect that three other satellites—Hungary, Romania and Bulgaria—must appear before the bar of justice in the United Nations and answer charges of violating the human rights provisions of their peace treaties. These charges were brought by America and Britain, and were based on the trial of Cardinal Mindszenty in Hungary and the trials of other high churchmen in Romania and Bulgaria.

Can't Compel Answers

Of course there is no method of compelling the satellites to answer the charges, and they may refuse to comply. However, the Hague decision will help focus world attention on the anti-religious activities in Soviet dominated areas.

These activities were graphically summed up by Attorney General J. Howard McGrath the other night in a speech at New York. He declared that "in the world behind the Iron Curtain a death struggle is being waged against belief in God in any form." He added that "Christians, Jews and Mohammedans alike are persecuted for their belief in the omnipotence of the Almighty and His teachings."

Why this drive against religion? It's essential that we know the answer to that because Atheism is one of the cardinal tenets of Communism.

Cannot Tolerate Religion

The Redism cannot tolerate religion because the latter condemns the sweeping violations of human rights upon which Communism is building.

The Soviet attitude towards religion was made quite clear just the other day by the newspaper "Komsomolskaya Pravda," organ of the youth organization "Komsomol." A youth who was a member of the organization wrote to the paper for advice:

"I intend to marry a girl who is not a member of the Komsomols and who wishes we should marry in church. Please tell whether I can marry in church."

The newspaper published a reply that a church marriage would be in direct violation of Komsomol statutes and would be an unprincipled step according to Communist morals. It added:

"It is clear that religious beliefs are deeply alien to our convictions and basically opposed to the tasks of Communist education."

Concentrating on Young Folks

rears its youth, and it is concentrating on young folks both at home and abroad. Young minds are more easily molded. That is why we find Communism placing so much emphasis on securing Red agents among teachers in schools and colleges and churches.

Apocryph of this Lord Vansittart the other night charged in the British House of Lords that Reds have infiltrated Britain's pulpits, schoolrooms, radio and government. The House adopted a motion calling for resolute precautions to protect the country from Communists in government.

There is no longer any doubt that Communism is out to kill all religion. Hitler undertook the same task and for the same reason—religion interfered with his schemes. He presumably stole the idea from Communism.

Cubs First Game With Holden

The newly organized semi-pro team of Sedalia, the Sedalia Cubs, will play their first game of the season at the Liberty Park diamond Sunday April 30, at 2:30 p. m. with "Stub" Roberts' Holden Chiefs.

This game though a starter for the season should provide plenty of good baseball for the local fans. The Cubs have held their first practice session and have reported their hitting was unusually good for this time of the season.

The Cubs will soon have the remainder of their schedule completed and have had several very promising offers. Their schedule will include Sunday afternoons, nights and Thursday and Friday nights.

The Cubs will practice again Wednesday evening at 5:30 o'clock weather permitting, and the coaches and managers ask that all pitchers and catchers please show up

Resolution To Combat Gambling

KANSAS CITY, April 4.—(P)—The Ministerial Alliance Monday adopted a resolution to take up the matter of "wide open" gambling with Gov. Forrest Smith, city and county officials and the board of police commissioners.

Action by the members followed a report by Dr. D. A. Holmes, pastor of the Paseo Baptist church, Negro, and member of the alliance's civic committee.

Dr. Holmes said there are many gambling places open "to the extent of going full force."

Cards Have Spirit And Will to Win

'You've Got to Beat 'em to Take The Big Apple'

By Whitney Martin
ST. PETERSBURG, Fla., April 4—(P)—Stan Musial hit two consecutive pitches out of the park, then took a tremendous swing, missed, and fell flat on his face in the batting cage. Enos Slaughter, leaning against the cage, roared with laughter.

"That was the same man who hit those other two, gentlemen," he shouted gleefully. "The same man," Musial arose, dusted himself off and grinned sheepishly.

He said nothing as he resumed his stance, but there was something significant in the good-natured ribbing and the way it was taken; a tight bond of fellowship seems to be a trademark of the St. Louis Cardinals.

Blended Into a Unit
It is apparent in a thousand little ways. Most of the athletes have been through so much together, have mutually enjoyed the great triumphs and smarted under the same disappointments, that they are blended into a unit.

It is apparent in their clubhouse here, a low, sprawling building nestled between the modern concrete grandstand of Al Lang field and the bay into which well-nudged home runs over the left field fence splash.

There isn't another clubhouse quite like it, with its modified bedlam of noise and confusion. Half-dressed athletes may be grouped about a trunk in an impromptu card game. The omniscient phonograph will be scratching yowling a hillbilly tune. There are shouts and loud banter and noisy laughter.

Lots of Freedom
The door to Manager Eddie Dyer's cubbyhole dressing room invariably is open, and the players wander in and out at will. All call him "skip," and he loves it.

The setting is a carryover from the "gas-house gang" days, the new players taking their cut from the veterans to perpetuate the spirit of freedom and abandon and unity which makes itself so evident when the team goes on the field. They'll tear your legs off to score a run, but that's the way they play the game, up to the hilt.

Still Take the Birds
That's why a lot of critics who otherwise might think there was too much old blood on the team, speaking in terms of playing years, rather than actual years, still string along with the Red Birds in the pennant race.

Their spirit and will-to-win, nourished through the years when a world series cut meant so much to them, offset any gradual slowing in the step or weakness in the arm.

You've got to beat 'em to take the big apple; they won't beat themselves.

PGA Fired Its Bureau Manager

CHICAGO, April 4—(P)—The Professional Golf Association awaited today the aftermath of its firing of George Schneider as tournament bureau manager. Open revolt of headline golfers from the parent organization may follow in the wake.

Schneider came to Chicago yesterday as a player-representative to meet with PGA officials including Joe Novak, president; Horton Smith, secretary; Tom Crane, executive secretary; Harry Mommitt of Toledo, treasurer; and several members of the advisory tournament sponsors' group.

Circuit Judge 'Just Hates the Cardinals'

ST. LOUIS, April 4—(P)—The St. Louis Browns have an ardent fan—and the Cardinals an enemy—in Circuit Judge James E. McLaughlin.

The judge disqualified himself yesterday in a \$25,000 damage suit against the Cardinals because of his pronounced baseball feelings.

"The court is so biased and prejudiced against the defendant in this case that it would not want to be placed in a position where some of its decisions would be called dishonest," McLaughlin said with a smile.

"I've been an ardent Brown rooter for years and I can't help it. I just hate the Cardinals." The damage suit was filed by Mrs. John T. Hughes, who claims she suffered a broken arm and head injuries when she was knocked down and trampled by two over-enthusiastic seat cushion gagers. The case was transferred to another court.

Globetrotters Dropped Basketball Game
CLEVELAND, April 4—(P)—Harlem's famed Globetrotters and the college All-Americans were tied at one-all today in their 18-game cross-country basketball tour.

Playing on a slippery, sweating floor that caused numerous spills, the collegians led all the way last night and romped to a 66-58 victory.

The two teams meet again tonight in Indianapolis. The Globetrotters, who have suffered only three losses in 150 games this season, won the opening contest in Chicago, 58-47.

Briefs on Major Leagues While in Spring Training

SAN ANTONIO, Tex., April 4—(P)—Leo Durocher, manager of the New York Giants, says he isn't worried about the performance turned in by his pitchers. Not yet, anyway.

"But if it keeps up, then I will really worry," he said after three pitchers were bombed for 31 runs in three games.

"The fellows are throwing hard and their arms are loose. That's all I'm interested in."

Durocher's hurlers lost a 5-3 decision to Cleveland yesterday.

Jackie Jensen Was Power for Yankees

ST. PETERSBURG, Fla., April 4—(P)—Jackie Jensen, bonus beauty from the University of California, has begun to make the New York Yankees' brain trust sit up and take notice.

A mediocre .196 hitter in 10 previous contests, Jensen cracked out a single, triple and home run yesterday against the Cincinnati Reds. He scored three times.

In addition, the home run gave Jackie the club lead with four Cincinnati won the game, 6 to 5.

Third Base Is a Sore Spot

SAN ANTONIO, Tex., April 4—(P)—Third baseman Frank Gustine made his initial appearance of the season in the St. Louis Browns' lineup yesterday but failed to get a hit.

He did show a nice bit of field work, however, when he pulled in a relay to tag Dave Philley of the Chicago White Sox who was trying to stretch a blow into a triple.

Third base has been a sore spot with the Browns.

Player Released by Cardinals

ST. PETERSBURG, Fla., April 4—(P)—Outfielder Harold Stamey bonus player drafted by the St. Louis Cardinals from the Philadelphia Phils' organization last fall, has been claimed on waivers from Cincinnati.

He is assigned to the Reds South Atlantic team at Columbia, S.C.

Stamey is the second player released by the Cards this spring, cutting their roster to 38. Pitcher Bill Reeder was sent outright to the Rochester team last Saturday.

Braves Wind Up Spring Training

BRADENTON, Fla., April 4—(P)—Boston's Braves wind up their spring training exhibitions at their camp here today by playing the St. Louis Cardinals. The pitcher against the Redbirds will be Dick Manville. Bob Hogue, Ernie Johnson and Glenn Elliott, Tommy Holmes, who for years has been the popular, timely hitting right fielder for the Tribe, apparently has become the club's reserve first baseman.

Red Sox to Start Trip Northward

SARASOTA, Fla., April 4—(P)—Boston's Red Sox have finished their Sarasota springtime exhibition ball games. After an hour and a half workout today they will prepare to break camp and will start their barnstorming trip northward with a game against Jacksonville there tomorrow.

Oldtimers Have Zeal of Rookies

SAN ANTONIO, Tex., April 4—(P)—Pitcher Early Wynn and second baseman Joe Gordon, two oldtimers, have been performing for the Cleveland Indians on the Grapefruit grind with the zeal of a couple of rookies.

Wynn, a big righthander who is 30 and has been in the majors since 1941, has won five starts and hasn't lost one. Yesterday at El Paso he allowed the New York Giants only six hits in seven innings as the Tribe won 5-3.

The 35-year-old Gordon, who came into the bigtime 12 years ago, clouted a 365-foot homer over the centerfield wall with a man aboard. He had a homer Sunday, too, and his total of five is only two less than that of Luke Easter who's been at bat about twice as often.

Reds Are Homeward Bound

ATLANTA, Ga., April 4—(P)—The Cincinnati Reds were homeward bound today—they'll meet Atlanta of the Southern Association here tonight.

The Reds closed out their Florida training with a 6 to 5 victory yesterday over the New York Yankees.

Newhouse Has Arm Trouble

LAKEWOOD, Fla., April 4—(P)—It looks now as though Hal Newhouse's mysterious arm trouble may prevent him from pitching the Detroit Tigers' American League opener.

The opener—against Cleveland April 18 this year—has been Hal's private property in the past.

Manager Red Rolfe is figuring on Freddie Hutchinson or Art Houtteman.

Won't Be So Patient With Athletic Pitchers

WEST PALM BEACH, Fla., April 4—(P)—There will be no dilly-dallying with pitchers who don't produce in games played by the Philadelphia Athletics this year, Manager Connie Mack said today.

"We are not going to be so patient this year with our pitchers," the 87-year-old manager said in outlining the A's new policy.

"In the past it has been impossible for us to take a pitcher out of the game after he walked several men in succession because we would not have another pitcher to put in his place.

"This year things will be dif-

ferent. We still don't have as many pitchers as I would like, but I feel that the nine we have available will prove themselves capable."

Nationals Ordered to Take Rest

ORLANDO, Fla., April 4—(P)—With time getting short to get in shape for big league play, the Washington Nationals were ordered to take a rest today.

Manager Bucky Harris figured they need it after watching what he thought was his best pitcher, Rae Scarborough, get walloped for 17 hits by a team of minor leaguers yesterday. The Springfield, Mass., club of the International League humiliated the Nats. 7-4.

A Juvenile Infield For Chicago Cubs

Housecleaning For Cubs Has Been Thorough

By Gayle Talbot

PHOENIX, Ariz., April 4—(P)—Frankie Frisch refused to weaken in his determination to start his Chicago Cubs off with a juvenile infield in this year's National League scramble.

"Those guys we had last year couldn't win," he says, reasonably. "You can't finish any worse than last. I'm going to go with the kids until they show me they can't do any better."

The Cubs housecleaning has been most thorough. Only two men remain of the 1945 team which won the pennant and lost to Detroit in the world series—Andy Pafko and Phil Cavaretta. Pafko is set to start in center field again, but Cavaretta, at 33, will find himself reduced to utility duty in the outfield and at first base if Frisch's brave new infield holds up.

Were in Minors
Three of the infield designers were in the minor leagues this time a year ago. Preston Ward, 22, was first-basing for Fort Worth in the Texas League; Wayne Terwilliger, 23, was holding down second for Los Angeles of the Pacific Coast League; and Bill Serema, 23, was at third for Dallas of the Texas League.

Only Roy Smalley, 23, and bullet-headed, survives at shortstop of the infield which started out under Charlie Grimm last spring. He is the standout young player on the club.

Ward, who started with Brooklyn back in '48, had a fine year with Fort Worth, batting .303 and knocking in 112 runs. He is a polished man around the bag, and Frisch is convinced he's ready.

Slick Fielder

Terwilliger is of rather slight build and gives little promise of important hitting, but he is a slick fielder and should team with Smalley for a sizable crop of double plays.

Serema, before joining the Cubs late last season, compiled a .281 average for Dallas and slammed 28 homers, third highest in the Texas League. Ransom Jackson, a long-ball hitting rookie from Oklahoma City, and Bob Ramazotti, obtained from Brooklyn, just about complete the infield possibilities.

The outfield could have pretty good power. Pafko fell off to .281 last year, but he was over .300 each of the two previous seasons. Hank Sauer, who will play left, clouted 31 homers for Cincinnati and the Cubs last year and knocked in 99 runs. Bob Borkowski, a .376 clubber from Nashville, is giving holdover Hal Jeffcoat a tussle for the rightfield spot.

Minnesota Makes a Strong Bid in NCAA

CHICAGO, April 4—(P)—Minnesota, celebrating its centennial year in 1951, has entered strong overtures for the NCAA basketball championship tourney next March. The Gophers' bid, backed by guaranteed accommodations in a new, and one of the nation's finest, fieldhouses, will be considered today by the NCAA's executive committee. Boxing tourney sites and dates also may be considered for 1951.

Johnny Sain May Regain His Old Pitching Form

By The Associated Press
Johnny Sain, ace Boston Braves pitcher, no longer had a scoreless-inning streak to boast about today. Nevertheless, the big right-hander gives promise of regaining his brilliant 1948 form.

The strapping 200-pounder sparked the Braves to the National League pennant two seasons ago when he won 24 games and lost 15, striking out 137 batters and walking 83.

He couldn't maintain the pace last year. Hindered by a sore arm and seeing less action, the Arkansas moundsman had a record of 10 and 27.

With the same Braves in 1947, he had a 21-12 mark and, in 1946, it was 20 and 14.

Blanked Tigers

Johnny stretched his string of scoreless innings to 18 yesterday by blanking the tough Tigers from Detroit in the first inning of a game at Lakeland, Fla., won by the Braves, 6-4.

Sain finally was nicked for a run in the second inning. In all, he worked five innings, gave three runs and seven hits before being replaced in the sixth by Vern Bickford.

The Red Sox, Boston's highly respected American League representatives, dropped their seventh game in their last eighth starts by finishing on the wrong end of a 5-4 tussle with the St. Louis Cardinals.

Cardinal President Hopes to Obtain Miller

Fred Saigh, Cardinal president, revealed last night that he would like to sign Eddie Miller, veteran infielder recently dropped by the Philadelphia Phils.

Stopping off in Atlanta, Ga., on his way to St. Louis, Saigh said, "I hope we can get Miller. If he does come with us it will bolster our infield a great deal. Miller can give relief to Marty Marion at shortstop or he can move over in place of Red Schoendienst at second base."

Saigh did not say whether any actual move to land Miller had been made.

Gov. Smith Appeals For Gas Tax Increase To Better Roads

Continued from Page One

of the state. It will improve and modernize the main state highway system. It will enable the cities to build freeways to relieve high way bottlenecks. It will extend the farm-to-market road system.

"And, important too, more revenue for the state highway department means aid can be given the cities for maintenance of streets over which our highways are located."

"All road revenue will be spent under the sole direction of the state highway department."

"Farmers and other users of non-highway gasoline, will get their refunds on the entire amount of the tax."

"The gasoline tax rate has remained unchanged in Missouri for the past 25 years. Yet highway construction costs have more than doubled during the same period."

Maintenance Cost Soared
"Heavy increase of bus and truck traffic has sent highway maintenance costs soaring from \$5 million in 1941 to \$12 million this year."

"More than 4,500 miles of the present highway system must have immediate attention in the interest of public safety. We must protect the state's half billion dollar investment in our highways by maintenance."

"Last year 788 were killed in traffic accidents alone on Missouri highways. Twenty-seven thousand six hundred persons were injured. This traffic slaughter on our highways can be greatly reduced by modernizing our old highways."

Mud Roads 42,000 Miles
"Missouri has more than 42,000 miles of mud roads. One-sixth of our population are mud-bound in bad weather. Let us be a good Samaritan tomorrow and help our farmer neighbors."

"Thousands of our people are forced to use horse-drawn vehicles a part of every year. "Doctors are unable to attend the sick and dying because of these impassable roads."

"Thousands of farm homes fail to get mail regularly because the letter carrier is unable to travel over the mud roads."

"Many school children are deprived of continuing their education because of the impassable condition of rural roads. Many thousand children spend more time riding to and from school in horse-drawn wagons than they spend in class rooms."

"Our school consolidation program cannot go forward until we have more and better highways. Good schools and good roads go together."

"This road program is a general public welfare program. "We must approve this program if we are to reduce the staggering death toll."

"It will insure medical attention when it is urgently needed. "It will enable our rural school children to have equal education with the children in the cities."

Not Risk Federal Aid
"Missouri cannot — must not — risk the loss of millions of dollars in federal aid."

"Last December 31, there were \$31,000,000 in federal aid available for Missouri. Our state highway department did not have the matching dollars as required."

"This year the department will have only about \$6,000,000, which is not enough to match federal funds. The money for this purpose is decreasing every year. The situation is now critical."

"The state around Missouri are all spending more on their roads than we are. They will be glad to get our share of federal aid to use on their roads. We must not let this happen."

Joe Tipton, Now With the Athletics, Sure Gets Around

By Jack Hand
WEST PALM BEACH, Fla., April 4—(P)—Are you bored? Tired of the same old faces? Want a change?

Join the Joe Tipton excursion. The 27-year old catcher, now with the Philadelphia A's gets around. This is his third club in three seasons. He's been in the big leagues three years.

Tipton, a farm boy from McCaysville, Ga., is "sure delighted to be over here" with the Athletics. He holds no grudges against Cleveland or Chicago, his former employers. He's just "relieved."

After 34 months' service in the Navy, Tipton hit .327 in Harrisburg, Pa., in 1946. Next year was his big one, .375 at Wilkes-Barre, Pa., in the Eastern League.

Off that year at Wilkes-Barre he moved up to Cleveland. Joe caught 47 games for the pennant-bound Indians.

Indians Unloaded Him

The Indians unloaded Tipton, a .289 hitter, a month after they won the world series. There were a couple of reasons. One was an argument at the pennant-clinching party. Another was that Cleveland wanted to get Pitcher Jo Haynes from Chicago. Tipton went to the White Sox.

It was sure to be only a matter of time before the temperaments of Tipton and Jack Onslow, fiery White Sox manager, would clash.

"We got in a wrangle at St. Louis," said Tipton. We wanted to call the pitches from the bench, I told him if I was a big league catcher I knew enough to call the pitches myself. He chewed me up said to take his signs.

More Fines
"Hell, I took no signs from him. The next thing you know that big Graham (Jack Graham) hit one off the wall. Onslow came rarin' out and fines me \$100 and the pitcher \$100. The pitcher was Bob Kuzava. I said something back at Jack and he made it \$400 more."

"The fines never stuck. But one day last summer I went up to Frank Lane (White Sox general manager) and told him 'don't you send me a contract next winter if Onslow is still here.' He did even better and told me 'I'll guarantee you won't get a contract from Chicago next year.'"

"He kept his word, too. Two weeks after the season was over and they announced Onslow was coming back, I was traded to the Athletics for Nelson Fox."

So far Tipton is scrambling with Joe Astroth and recently-arrived Mike Guerra for the No. 1 job.

work in the cities; 3—To improve and modernize the main state system, and 4—To build and maintain state rural roads.

"The constitutionality of this road program has not been questioned except by the selfish interests opposing its adoption. "The attorney general of this state has not been requested, and has not passed upon the constitutionality of the law. Any statement to the contrary is an absolute falsehood."

"Let's not wait until our highways are ruined to awaken to the fact that something must be done. "We are already the last state to recognize the state highway department today must have more revenue to meet increased, modern needs."

"The future of Missouri and its highways are at stake in tomorrow's election. "Your state highway commission, with a record of achievement unsurpassed in the nation, tells you it cannot continue to operate as in the past without more revenue."

"In casting your ballot you must choose between your bipartisan state highway commission and the selfish interests which are tearing up our highways—not building them."

"Do not let these selfish interests hoodwink you into believing the false and misleading statements they have made in this campaign. They have been thrown up as a smokescreen to confuse the real issues—which are, more and better roads."

Says Program Fair
"Again, speaking as governor of all the people, I tell you this is the fairest and best road program ever advanced in Missouri. It helps all of the people. The cities and rural areas both benefit from it. It takes the farmer out of the mud. It makes driving in the city safer and easier."

"What helps one helps the other. Better highways help everybody. "I plead with all Missourians tonight not only to vote for this good roads law personally but also to get your friends and neighbors to go to the polls tomorrow and also vote for it."

"Your approval of this new road law tomorrow means that we will be able to make two dollars to do the work of one through federal aid."

"The proposed law is the only formula for getting the money needed, and, my friends, it is the only fair way."

"The state highway commission has had its experience with rising costs, even as you and I have had with the increase in the cost of living."

"It costs you and me almost twice as much to live nowadays than it did 10 years ago. "Likewise, the highway department has had its operational headaches. It costs twice as much and more to maintain highways over 10 years ago. Construction costs have jumped 85 per cent."

Workers get more pay. Materials cost more. Equipment costs more. "Along the highway construction line, costs have gone up, but we here in Missouri haven't done anything about providing the increase in added revenue needed to meet these costs."

"Good roads are the routes to prosperity. "So, Missourians, I again plead with you to vote for this new good roads law tomorrow."

Commends Optimists
"With our radio broadcast out of the way I would like to visit with you good people of Pettis county a little longer. First, however, I want to express my grateful appreciation to

the members of the Optimist club and others, for arranging and sponsoring this meeting. I greatly appreciate the spirit of cooperation and warm friendliness which prompted the invitation to make the final talk in this good roads campaign here in Sedalia."

"I have only recently learned of the outstanding service being rendered to the boys of Sedalia by the Optimist club."

"The Junior Optimist clubs are helping to make better boys today. This will mean better citizens tomorrow."

"I am told 90 per cent of these Junior Optimists attend Sunday school and church regularly as a result of this boys' program."

"And equally important, there has been a very noticeable decrease in juvenile delinquency since these boys' clubs were started."

"The Optimists, I understand, have built and equipped a cabin for week-end camping trips for the boys this summer."

"I commend this outstanding public service being rendered by the Sedalia Optimist club. I know of no finer activity in the state. In helping these boys to become better men tomorrow I am sure you men of the Optimist club are also finding new enjoyment in your own lives."

"I only wish we had a similar boys' program in every community of the state. Then we would have but little need for the state institutions at Booneville and Jefferson City."

"A while ago I spoke to you generally of the benefits the proposed new highway program to be voted upon tomorrow would provide Missouri."

Benefits To Pettis County
"Now I would like to point out the benefits Sedalia, Pettis county and your neighboring counties will get if this new road law is approved."

"The 8-county area, which includes Pettis and its surrounding counties, will get \$1,296,411 annually for rural roads alone."

"This is nearly five times the average amount these same counties have received annually for the past 10 years for construction of farm-to-market roads."

"Pettis county will get \$186,476 each year for rural roads. Compare this with the \$39,777 which is the average your county has received annually for construction over the past 10 years."

"There is another feature of this road program that is important to you in Pettis county."

"This money can be used to help maintain the fine system of all-weather roads you now have. Never again will hard-surfaced roads revert to mud roads."

'Help For Cities'
"Largely through the efforts of your very able mayor, and my friend, Col. Julian Bagby, the state highway commission has announced that if this road program is approved tomorrow, it will, as quickly as possible, help cities such as Sedalia with the maintenance of streets over which our state highways are located. This will mean much to Sedalia."

"I, for one, believe the state should help the cities. The out-of-town traffic, for the most part, is responsible for the wear and tear on this city's traffic routes."

"The state should bear the cost of the maintenance of those streets. And I am sure the time is not far off when the state

Bipartism Inquiry Is Proposed

Lodge For It As Truman Tells Officials Ignore Subpoenas Issued

By Francis J. Kelly
WASHINGTON, April 4 (AP)—Senator Henry Cabot Lodge, Jr., Monday condemned the Senate's State Department investigation as damaging the United States before the world. He called for a bipartisan commission to dig out the truth.

Lodge said the method of hearing charges of Communism often smeared innocent persons, missed "the really dangerous individuals," and could actually protect "the real Communist ringleaders."

The Massachusetts Republican is a member of the Senate foreign relations subcommittee conducting the investigation into charges of Senator McCarthy (R-Wis) of Reds in the state department. He added:

"All we can learn so far shows clearly that none of the current charges have been proven."

Justified On FBI Files
He condemned President Truman's refusal to disclose government loyalty files of those accused by McCarthy, although he said it was justified in the case of FBI material. Lodge did not mention either man by name in his attack on the methods permitted by the committee.

He told the Senate that if a political purpose exists in the investigation, "it merits unreserved condemnation."

McCarthy, in a statement, said he favored the Lodge proposal for a nonpartisan confidential study. Lodge declared that damage is mounting from the present way Congress is trying to check disloyalty charges. He cautioned that because the inquiry affects the nation's foreign relations, it has a life and death meaning for every American.

"Americans must stand together before the world menace of Communism," he declared. "Dangerous days are in the offing."

Lodge's proposal, offered with that grave emphasis to the Senate, was one of several developments today in the furor growing out of charges by McCarthy that Communist influences pervade the state department.

From the naval hospital where he is undergoing treatment for a sinus condition, McCarthy also issued a statement demanding the release of a secret memorandum on Far Eastern policies given to the state department last year by Owen Lattimore.

Revealed By Lattimore
The state department declined to make the document public, but a few hours later Lattimore himself did so, through his lawyer. He is a Johns Hopkins university professor whom McCarthy accused of being the Kremlin's top agent in

Offer Of Storage Payments Made

WASHINGTON, April 4—(AP)—The agriculture department Monday offered storage payments to farmers for holding about \$700,000,000 worth of surplus grains on farms another 12 months.

The offer was made on 1949-crop wheat, corn, oats, barley, grain sorghum, rye and flaxseed now stored on farms under price support programs. It is designed to slow down the flow of price-support grains off farms in excess of market needs and commercial storage facilities.

The storage rates offered were: Wheat and rye 10 to 11.5 cents a bushel depending on the area; oats 8 cents; barley 10 cents; flaxseed 11.5; grain sorghum 17.8 to 20.5 cents for 100 pounds or 10 to 11.5 cents a bushel, depending upon the area; and corn 10 cents a bushel.

ed that he had advised the state department last August against "premature or excessive strategic deployment in the Far East." He also said he thought the United States should abandon further support of Chiang Kai-Shek, not attempt to bring trade pressure on Communist China, and withdraw from what he called "entanglements" in South Korea as soon as possible.

In a statement accompanying his release of the memorandum, Lattimore said there was nothing novel about his views, which he said were well known to every student of China policy. He said he had planned to make the document public in his forthcoming appearance before the subcommittee which is investigating McCarthy's charges, and had expressed practically the same views in an article in the January issue of Atlantic monthly.

In another development today, President Truman formally notified the Senate subcommittee that he has told federal officials to ignore subpoenas which ordered them to hand over the loyalty files of state department employees accused by McCarthy.

The action was strictly a formality. Mr. Truman had made it clear last week he had no intention of turning over the files which are assumed to contain a great deal of confidential data.

Union Service By Alliance Good Friday

Fifteen Pastors Will Participate During Three Hours

A three hour Good Friday service, sponsored by the Sedalia Ministerial Alliance, will be held at the Federated Congregational-Presbyterian church, Sixth and Osage avenue from 12 o'clock noon until 3 p. m. Speakers at the service will be seven pastors of local churches, and eight other pastors will preside during the three hours of the service. Organists, and soloists will be provided by churches of the alliance. Since this three hour devotional service will be based upon the seven last words of Jesus from the Cross, meditations of the participating pastors will each be based upon one of these words.

Order of Service

The order of service will be as follows:

12:00-12:05—A prelude of meditation, Miss Mabel DeWitt. The invocation and call to worship, Rev. R. R. Parker, pastor, Church of the Open Bible.

12:05-12:30 — Rev. William C. Besmer, pastor, Evangelical and Reformed church, presiding. Rev. George Acree, pastor of the Assembly of God church, will speak on the topic, "Forgiveness at the Cross."

12:30-12:55—Rev. H. E. Hurd, pastor, Epworth Methodist church, presiding. Rev. J. A. Himes, pastor, Free Methodist church, speaking on the topic, "Authority at the Cross."

12:55-1:20—Rev. Thomas Croxton, First Baptist church, presiding. Rev. Roy Bowers, pastor, First Methodist church speaking on the topic, "Remembrance at the Cross."

1:20-1:45—Rev. H. U. Campbell, pastor Fifth Street Methodist church, presiding. Rev. Glen Lindley, pastor, Congregational-Presbyterian church, speaking on the topic, "Submission at the Cross."

Rally And Fish Fry Is Held

W. F. Brown In Address At One Monday Night

An overflow crowd gathered at 121 East Main street, Monday night to attend a political rally and fish fry, held by members of the Progressive Democratic Club, at which time William F. Brown was the principal speaker.

Carl Abbott had charge of the meeting and introduced the Democratic candidates running for city offices. Speaking besides the candidates and principal speaker was John Hendron, state Democratic chairman, who gave an organizational talk concerning the Democratic party.

Mr. Brown reviewed the accomplishments of the Democratic administration during the past four years in Sedalia, and also stressed the point that the Democratic party has operated as a team and will continue to do such.

The speaker further pointed out that the opposition had accused the Democratic party by inference of mis-management and the exhaustion of funds in administering the sewer project. The speaker pointed out that the audit as of March 31 1950 showed a total balance of \$405,304.94 to take care of the sewer project, voted by the citizens of Sedalia on November 18, 1947. Mr. Brown further stated that the sewer project would be completed in accordance with the plans approved by the Citizens Committee.

Weather Brings Out Votes

Indications Are That More Ballots Will Be Cast Than In 1946 Campaign

Today, election day, will probably see more than 6,000 eligible voters casting their ballots. In the 1946 election the total vote was 5,640. Four years ago a complete Democratic ticket was elected.

A survey of the polls early today showed better than an average vote being cast. A more extensive campaign has been put on this year by both parties in an endeavor to win the favor of the voter.

Both Democratic and Republican organizations have many automobiles in operation urging Mr. and Mrs. Sedalia to cast their ballot for the respective candidates.

Heavy voting usually occurs between 3:00 o'clock and 7:00 o'clock when the polls close. This is particularly so in the second, third and a portion of the fourth wards because of the Missouri Pacific shop vote and business houses which close at 5:00 o'clock in the afternoon.

Expect Large Vote
Veteran judges and clerks of elections all indicated this morning they expect the voting to exceed that of four years ago. But how much more, no one seemed willing to venture a guess.

The election today is unusual due to two separate sets of judges. One set of judges is handling the city election and school levy election, while the other is handling only the gas tax referendum. Out side of Sedalia, in the county precincts, only the gas tax referendum is being voted upon.

Forty years ago, the Democrats were successful in electing a mayor, being the late J. W. Mellor. In that election 878 votes were cast and the Republicans won three out of the eleven offices at stake.

Two Sedalians, who ran for office in that election are still living. One a Democrat, Judge E. W. Couey, who was elected city attorney and the other a Republican, Robert M. Johns, who was elected alderman from the Fourth ward. Both of these men are still very active in their respective parties.

Weather Brightens up
Monday and early this morning the indications were it would be a "rough day" as to weather. Rain fell the greater part of Monday followed by a light snow, which covered the ground early today. About 8:00 o'clock this morning the sun "broke through" the clouds and made the party workers happy.

However, the light breeze through the day made it rather nippy for the workers outside of the polls who were passing out cards for the various candidates. The Democrat-Capital will receive the returns tonight, but it will probably be 8:00 o'clock or later before any definite information can be given as to the results in any of the precincts.

Man Drowns In Flash Flood

BARNHART, Mo., April 4—(P)—One man apparently drowned and his wife and seven children were rescued last night in a flash flood of Glaze Creek on the outskirts of this Jefferson County community.

Tom Marler, 42, was swept away by flood waters as he and his wife went for help after the creek started flooding their home. He was still missing this morning.

Mrs. Marler told authorities she managed to climb into a tree when her husband was swept away. They were crossing a flooded area. She was rescued from the tree more than an hour later. The water had risen four and one-half feet in the house when the Marler children, ranging in age up to 12 years, were removed. State police reported the small stream, which empties into the Mississippi river near here, was falling today.

Bootleg Whisky Business Booms
WASHINGTON, April 4—(P)—The bootleg whisky business is booming.

SJ says the Distilled Spirits Institute, which keeps tab on the situation for legal whisky makers. The institute reports that federal agents seized 1,792 "moonshine" stills during January and February. That's 387 more than they found in the same period last year and 283 more than in the same months of pre-war 1940.

Died Today

Edward P. Mullaley of 608 South Washington avenue, Sedalia postmaster, who died at the Bothwell hospital at 11:44 o'clock this morning. He had been ill for some time and in the hospital since last Saturday.

E. P. Mullaley, Postmaster, Died This A.M.

Suffered From Heart Ailment, Ill For Some Time

Edward P. Mullaley, aged 66 years, of 608 South Washington avenue and for the past fifteen years postmaster in Sedalia, died at the Bothwell hospital at 11:44 o'clock this morning, where he had been a patient since Saturday.

Mr. Mullaley had suffered a heart attack some years ago, but improved and was able to return to his duties at the post office and apparently had regained his health. He had not been in the best of health, however, for the past several weeks and Saturday went to the hospital because absolute rest seemed necessary.

His son, William Mullaley of Washington, D. C. was summoned home and with his wife and daughter Martha Jane are expected to arrive this evening. Also enroute to Sedalia is Mrs. Mullaley's sister, Mrs. Fred Jensen of Colorado.

Born in Lexington
Mr. Mullaley was born in Lexington, Mo., but came to Sedalia at an early age. Prior to being appointed postmaster he was employed as a linotype operator at the Sedalia Democrat-Capital office. He began his apprenticeship as a printer in Sedalia, completed it in Greeley, Colo., then returned to Sedalia and was employed at various printing shops, later at the newspaper office.

In November, 1948, he was presented with a 40-year membership pin by Lionel G. Cooper, then president of the Sedalia Typographical Union No. 206 in a brief ceremony at the postoffice.

Mr. Mullaley was a member of St. Patrick's church and the Benevolent and Protective Order of Elks. For years he had been active in various union organizations, holding state as well as local offices.

He leaves his wife, the former Miss Cora Corbett; one son William Mullaley of Washington, D. C.; three brothers, Jack and Matt Mullaley of Sedalia and James Mullaley of St. Louis and two sisters, Mrs. Molly Scruggs and Mrs. Harry Hamm of Sedalia.

A son, Jack Mullaley, died in 1928. The body was taken to McLaughlin's chapel.

No funeral arrangements had been made late this afternoon.

April Brings Spring Flowers And Two Inches of Snow

With spring flowers in bloom over the city in an array of beautiful colors and many more with buds just about ready to open Sedalians were surprised to find that the spring storm with thunder and lightning, followed by a heavy rain and then hail, suddenly turned into a real snow storm. A total of about two inches fell which was as much, if not more snow, than we have had all winter.

The bright yellow jonquils that for days have been nodding gaily as the wind blew, this morning were completely white and flat on the ground and other flowers were almost covered by the wet snow that stuck to the leaves, new flowers and buds. But the warm air and morning sun soon began to melt the snow and by 10:00 o'clock there was no snow

Gov. Smith Appeals For Tax Increase For Better Roads

Governor Forrest Smith in his address Monday evening at the circuit court room of the court house in advocacy of the proposed increase in the gasoline tax for betterment of roads besides his audience attending had listeners in a hook-up of 24 radio stations.

The governor said: "Tomorrow is V-day in Missouri. It will be voting day. Your vote is urgently needed in this special election.

"The only issue is whether or not Missouri is to have better highways.

"Citizens tomorrow must determine the future of Missouri's highway building program.

"The voters must decide whether we are to have good roads in this state and maintain them, and whether we are to complete the job of lifting this state out of the mud.

"Much has been said in this campaign and quite likely some people are confused. Tonight I want to briefly, but with all the sincerity I can command, honestly and accurately report to you the real facts of the situation.

"This campaign for good roads is drawing to a close. I appeal tonight to my fellow Missourians to rally to the support of our non-political state highway commis-

sion, in its current financial crisis.

Wants Vote Of Confidence
"By giving your vote of confidence to the bipartisan state highway commission you will be helping yourself, your neighbors and your great state.

"As governor of all the people I can not, and will not, sit idly by and see our highways go to pieces for lack of revenue, without warning you of the consequences. I considered it my duty under my oath as governor.

"The state highway commission, whose record for honesty and integrity is unblemished since its creation, tells you it must have more money if it is to continue to properly maintain and expand our present state highway system.

"I have complete confidence in our state highway commission.

"I will not tolerate, so long as I am governor, any politics where our highways are concerned. Our highways are for all Missourians regardless of political affiliation.

"The road law you will vote upon tomorrow is the fairest and best highway program ever presented to the people of this state.

It is a balanced road program. It helps all of Missouri. It will build state rural roads in every county (Please turn to Page 11, Col. 4)

Sand Storm Paralyzes Suez Canal Traffic

CAIRO, Egypt, April 4—(P)—One of the worst sand storms in years paralyzed traffic throughout the Suez canal area last night and kept more than 20 ships from entering the canal.

High winds broke windows in Cairo and caused at least one vessel to run aground. The storm was dying down this morning.

Explanations And Opinions On Business

Reports Show 'We Are Going in Several Directions'

By Sam Dawson

NEW YORK, April 4—(P)—A handful of governmental and business agencies are out with reports today on trends. A number of them offer explanations and opinions on the question that always preoccupies them: "Whether we are going?" Looking them all over, it would seem the answer is: In several directions.

Take the job picture as reported by the census bureau and interpreted by Commerce Secretary Sawyer. The bureau believes, from such reports as it gathers, that unemployment dropped 561,000 in March, while employment increased 598,000. The labor force grows steadily, as the nation grows and that is one of the reasons the gain in employment and the drop in unemployment are never exactly the same.

Employment Gain Encouraging
Secretary Sawyer is encouraged by the gain of employment to 57,551,000 and the drop in the number of the jobless to 4,123,000. He says this trend away from rising unemployment came sooner than he had expected, but he admits much of it may be due to the settlement of the coal strike and normal pick-up in seasonal industries.

But there's still another factor the secretary doesn't mention. Productivity is rising, too. New machines and methods mean that more goods are being produced with fewer man hours. That factor and the growing number in the labor force puts the problem to industry to find more and more jobs, through making and selling more and more goods. Otherwise, unemployment will start rising again.

Installation Buying up
Less encouraging than the drop in unemployment are some other government reports today. Installation buying continues to rise. The Federal Reserve Board says it's now \$10.8 billion, a gain of \$2.5 billion in a year. People now owe \$3.2 billion on their automobiles alone. Some people say the national income can easily swing this much buying on the credit to total sales is far from dangerous. But others say that

Vinson Urges Boosting of Air Strength

Wants Planes to Meet Threat of 'Atomic Blitz'

WASHINGTON, April 4—(P)—The Defense Department today ordered new studies of its \$13,911,127,000 budget to determine whether more money should be asked for Air Force and naval planes.

Secretary Johnson said he has asked joint chiefs of staff to re-examine the question.

He told a news conference he believes all of the military forces and equipment recommended by Gen. Dwight D. Eisenhower can be obtained within the present budget.

But Johnson said that if the joint chiefs recommend more money for modernized aircraft he will ask President Truman and the budget bureau for the funds.

By Ruth Cowan

WASHINGTON, April 4—(P)—The chairman of the House Armed Services committee called on Congress today to vote \$583,289,211 for more warplanes to help meet the threat of an "atomic blitz."

Protesting that the administration's \$13,911,127,000 military program "will wither American air power on the vine," Rep. Vinson (D-Ga.) urged instead that air strength be boosted promptly.

Vinson said in a speech prepared for House delivery that the President's budget for the fiscal year beginning in July does not assure adequate defense at a time when "the atomic blitz of tomorrow is a real, a genuine possibility." He added:

"It is universally known today that Russia is building the largest air force in the world. What are they building it for? They are building it for use whenever their carefully-timed Pearl Harbor Day comes around."

To Sponsor Amendments

Previously Vinson has said he expects to sponsor several amendments to the bill authorizing military spending for the year beginning next July 1. In his speech, however, he brought up only the proposal for increasing air power.

The pending budget allows \$1,350,000,000 for air force procurement and \$650,000,000 for new planes for the Navy and Marines.

Vinson would give the air force an additional \$200,000,000 or a total of \$1,550,000,000 for new planes, and the Navy an increase of \$383,289,211 or \$1,033,289,211 for the same purpose.

These increases, Vinson said are needed to maintain an up-to-date 48-group air force and a modern naval air arm.

A House military appropriations subcommittee reported recently that this country now has only from 44 to 46 modern groups. Unless additional money is made available, Vinson said the nation would have only 42 modern groups by 1956. And the present bill, he added, "leaves a deficiency in naval aircraft procurement of 1,349 planes."

Ladled Out Criticism

Veteran of 36 years' experience in military legislation in Congress, Vinson ladled out caustic criticism and challenges—and some left-handed praise.

His principal target was Secretary of Defense Johnson.

"The issue is clear cut," Vinson said. "It is whether the Congress will say what kind of defense the nation will have, or whether the creature of the Congress, Mr. Louis Johnson, will tell us what kind of defense he will let the Congress have."

Harry Bridges Is Convicted

SAN FRANCISCO, April 4—(P)—Harry Bridges was convicted today of perjury.

He and his two co-defendants were likewise convicted on all three counts in the federal grand jury indictment.

The co-defendants were J. R. Robertson and Henry Schmidt, fellow-officers of Bridges in the CIO-Longshoremen's Union.

Bridges, Australian-born, is president of the union.

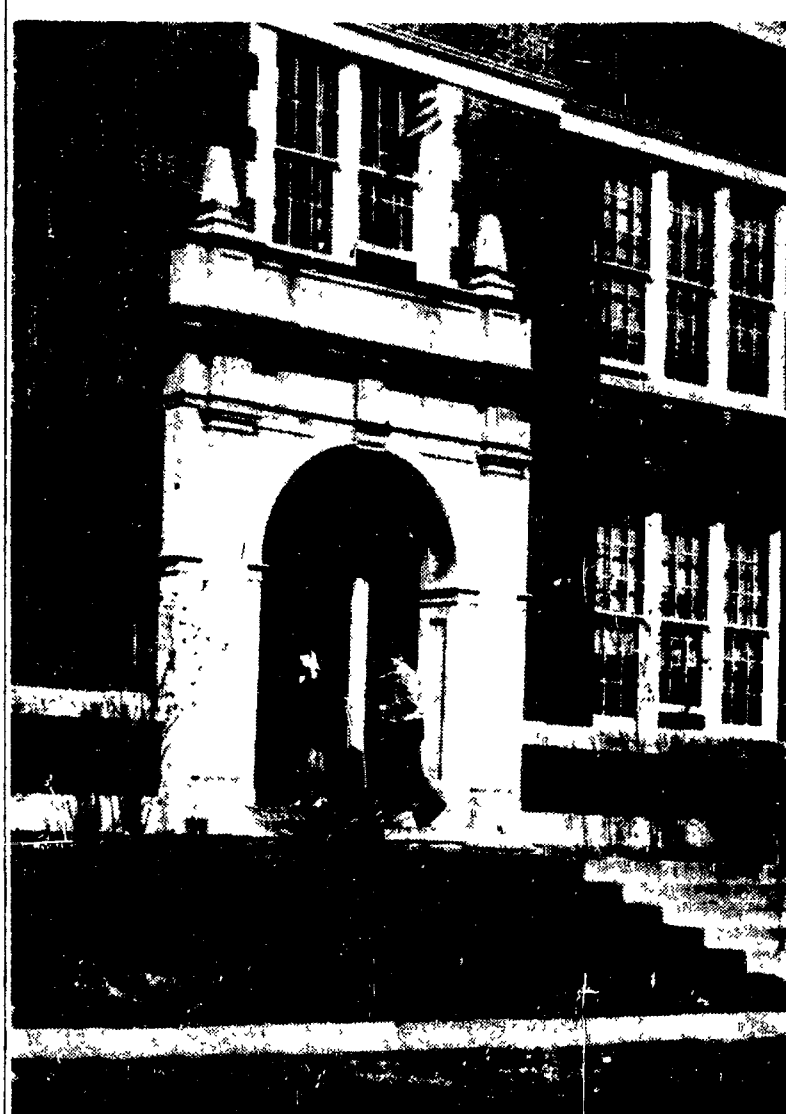

Windstorm Rips Alton Business Area

ALTON, Ill., April 4—(P)—A windstorm ripped through an Alton business section and nearby areas last night, injuring six persons and damaging several buildings.

Hartest hit was a section of ten blocks along the business street of East Broadway. All of the injured were in this area.

Lloyd Grace, 25, suffered body injuries while at work in a Laclede steel company plant. Patrolman Marion Van Fossen suffered severe hand lacerations.

Cripples Are Beneficiaries

JOPLIN, Mo., April 4—(P)—The Missouri Society for Crippled Children and the Shrine Crippled Children's hospital in St. Louis are among the principal beneficiaries of the estate of a millionaire leather goods manufacturer.

The will of the late manufacturer, Corry T. Meeker, was filed yesterday for probate. He died March 29, aged 74.

He made specific bequests of \$32,000 cash. The bulk of the estate, estimated at \$2,000,000, goes into a trust fund with relatives and the two institutions to receive the earnings.

It is estimated that the society and the Shrine hospital will divide annually between \$75,000 and \$100,000 from their share of the earnings.

Guilty Ballot Box Stuffing

CINCINNATI, April 4—(P)—The conviction of E. F. Prichard, Jr., 34, Lexington, Ky., for ballot box stuffing, was affirmed by the U. S. Court of Appeals, sixth circuit, today.

The one-time favorite of the late President Franklin D. Roosevelt was sentenced to prison for two years by Judge H. Churchill Ford last July 14.

He was convicted specifically of conspiring to forge ballots in the 1948 presidential election in Bourbon county, Ky. Prichard has been free on \$5,000 bond.

Prichard held high positions in Washington during the Roosevelt administration. At one time he was counsel for the Democratic national committee.

He also was an aide to Chief Justice Fred M. Vinson and Justice Felix Frankfurter.

Ball Game Cost Young Boy His Life

PENROSE, Colo., April 4—(P)—A sandlot ball game cost 12-year-old Dale Carruthers his life.

Dale died of a brain injury last night, only a few hours after he collided with 16-year-old Charles Ettlerman as both sprinted to catch a high fly.

The Ettlerman boy received a broken collarbone in the collision.

Census Easily Taken

ROCKVILLE CENTRE, N.Y., April 4—(P)—Mrs. Marian Attfield, the first census taker to complete her rounds in Nassau county, returned to headquarters here yesterday and told officials:

"No one would talk."

She explained that she found the Long Island area assigned to her contained nothing but a cemetery and an abandoned house.

Files for Renomination

JEFFERSON CITY, April 4—(P)—Congressman Phil J. Welch filed today for renomination on the Democratic ticket.

Truman Lacks Knowledge of Flying Saucers

Nothing to Substantiate Rumors-Reports

By Ernest B. Vaccaro

KEY WEST, Fla., April 4—(P)—The White House said today that President Truman has no knowledge whatsoever of the existence of so-called "flying saucers."

Presidential Secretary Charles G. Ross said neither the President nor members of his staff knew of any such mysterious objects either as a secret weapon of this, or any other country.

Ross said Brig. General Robert E. Landry, the President's Air Force aide, recalled that the Air Force set up a special project in December, 1947, to "investigate all rumors and reports as to flying saucers."

The project, Ross said, was carried on until last August when it was determined there was "nothing to substantiate reports of such object."

Convinced Rumors Were Baseless

The Air Force was so firmly convinced the rumors were baseless, the project was discontinued, Ross said.

The "flying saucers" reports were revived yesterday when the Washington weekly magazine, David Lawrence's "United States News and World Report" declared they exist and that they are aircraft of unusual design developed in the United States, probably by the Navy.

Denied By Navy

The Navy denied it. The Air Force previously issued a denial.

Asked about the report at a news conference, Ross said "people here knew nothing about these mysterious flying objects."

Ross said he was not trying to set himself up as an authority on secret weapons.

"I'm not denying this because it is a secret weapon category," he said. "What I'm saying is that nobody here has any information on any such matter."

"Do you think it likely that there would be any secret weapon project underway without the President knowing about it?" Ross was asked.

"I think it extremely unlikely," the secretary said.

No Last Minute Forecast

Made Today by James Kirkpatrick, Campaign Manager, Better Roads Group

By Larry Hall

KANSAS CITY, April 4—(P)—A four cent gasoline tax got a mixed reception at the polls in the early voting in Missouri's special referendum election today.

Voting was heavy in some places where city elections helped pump up interest but light in others.

Kansas City's early voting was light. But election workers were out early in the north side areas dominated by Charles Binaggio and Henry McKissick. There were signs the balloting would pick up there later in the day.

They—like most other leaders of organized Democratic groups—have been supporting Gov. Forrest Smith's plan to double the present two cent tax and use one cent for rural roads.

Early voting in the city of St. Louis also was light. A check of scattered precincts indicated that only about 26,500—representing less than seven per cent of the 386,251 registered voters in the state's largest city—cast ballots during the first four hours.

JEFFERSON CITY, April 4—(P)—A four cent gasoline tax will become effective with a whoosh if Missourians approve it at the polls today.

The state will start collecting the higher tax as of midnight tonight—if Gov. Forrest Smith's sponsored law receives a majority of the votes in today's referendum election.

Attorney General J. E. Taylor held last week that a law referred to the people becomes effective as soon as the results show it passed. It isn't necessary to wait for the official canvass of votes within 40 days after the election, Taylor said.

Skies Clearing

Skies were clearing in most of the state today but yesterday's rain hung on in southeastern Missouri. At Poplar Bluff, morning showers kept the voters away. Five early voters at one Butler county precinct said they voted for the tax increase.

A hot local fight over control of the city council brought out a heavy early turnout at Jefferson City.

The first 50 votes counted in one precinct showed 27 against the tax increase and 23 for it.

James C. Kirkpatrick, campaign manager for the governor's better roads committee, declined to make a last minute forecast.

"It's in the hands of the people now," he said.

The governor plans to listen to radio returns at the committee's headquarters tonight. He wound up his campaign in a final radio speech at Sedalia last night over a statewide network.

An ideal day, crisp and cool, greeted St. Joseph citizens. The early voting there was fairly heavy.

Lines Formed Early

Lines formed as early as 7 a.m. at some Springfield precincts. By 10:35 a.m. the count in three precincts there was 576 against the tax increase and 115 for it.

A school levy election, extension of the city limits and election of a revenue commissioner, a street commissioner and school board members sharpened the interest of Springfield voters.

But outside the city in Greene county the tax increase was the only issue. There the voting was light at mid-morning.

Five precincts had 200 votes by 9:30 a.m. at Nevada—a heavy vote. Roads in that area were reported in good shape after yesterday's rain.

Heavy Vote in St. Louis County

An unexpectedly heavy vote was rolled up this morning in St. Louis county. There were as many as the polls there by 9 a.m. as there had been by 2 p.m. in last week's special charter election.

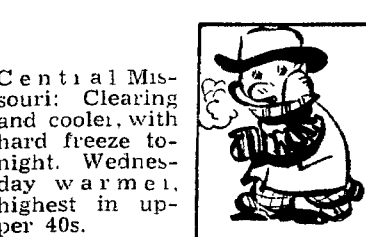

It was cloudy in eastern Missouri but no new rain was reported. Temperatures ranged from the upper thirties to the lower forties.

The early vote was light at Columbia, where it was cloudy and damp.

A blanket of snow covered the ground at Moberly this morning. Roads there were reported in pretty bad condition after yesterday's 1.05 inch rainfall. The temperature was near freezing at 8 a.m. and the early balloting about average.

By mid-morning, clouds were breaking up at Jefferson City before a brisk northwest wind.

The Weather

Central Missouri: Clearing and cooler, with hard freeze to night. Wednesday warmer, highest in upper 40s.

Temperature: 7 a.m. 32 degrees, 2 p.m. 44 degrees

Moisture: .48 inch

Lake of Ozarks: 8.7; rise 2

Campaign on At High School

The campaign president of the Junior Student Council got under way Monday with the formal campaign speeches held at 1:00 o'clock in the afternoon. There are six candidates competing: Gene Watts, Lanny Benson, Shirley Kirkpatrick, Jack Issur, Kenneth Smith, and Larry Lange.

The Junior Council race is getting started a week before the Senior Council race because of the fact that there are only four candidates in the senior high school. The elections are run on an elimination basis with the top five candidates remaining in the race after the first election, the top two after the second election.

Other officers giving reports were: Mrs. D. S. Lamm, members at large of the executive board; Mrs. D. S. Lamm; Mrs. Gilbert Jones, parliamentarian; Mrs. John Ryan, historian; Mrs. A. H. Wilks, sergeant at arms and Miss Etta Hurley, assistant sergeant at arms.

Following the meeting Mrs. F. B. Piper presented Mrs. Karen Crosslin in a number of violin numbers "Ave Maria," "The Mocking Bird" and "Pop Goes the Weasel." She was accompanied by Mrs. Piper at the piano.

Following the program refreshments were served.

Mail Pouches Are Exchanged

SACRAMENTO, Calif., April 4.—(P)—Mail pouches were exchanged yesterday by sacramento and St. Joseph, Mo., on the 90th anniversary of the founding of the pony express.

But the mail went on wings, not on the hooves of the horses. Mail from St. Joseph was flown to Sacramento in just 10 minutes less than five hours.

Sacramentans sent east a packet of letters from state officials and some real California gold dust.

The horse was not forgotten, however. A pony ridden by Oren Baker carried a packet from Lt. Gov. Goodwin J. Knight in downtown Sacramento to the airport.

But from there to St. Joe it was quite a different kind of horse power than that which used to bring Missouri mail here in seven days.

WASHINGTON, April 4—(P)—A presidential emergency board has recommended a 45-cent-a-day pay boost for engineers and firemen of the St. Louis Terminal Railroad Association. It proposed the increase be made effective as of last December 1.

The Terminal Association and the Brotherhoods of Locomotive Engineers and Firemen have until May 1 to consider the recommendation. If they fail to agree by then, the unions can strike.

The Brotherhoods had demanded a raise of 56 cents a day.

The emergency board's report was sent to the White House Saturday and released there today.

John Strachey (above), who has been under fire from a portion of the British press since he was named British war minister, is now the center of an international political storm. Strachey has denied he ever was a Communist, but at The Hague Atlantic Pact talks it was reported that Anglo-American defense chiefs had agreed to keep the highly confidential military secrets from him. His boss, defense minister Emanuel Shinwell said there "isn't a word of truth" in the report, but the conservative London Daily Mail said Prime Minister Attlee will be questioned in Commons about it. Lightning Kills Three Horses

POPULAR BLUFF, Mo., April 4—(P)—Gordon Manns, 21, was currying one of four horses at the farm of Allen Morris this morning when lightning struck nearby. Three of the four horses were killed and Manns was unconscious for nearly an hour from shock. He suffered several burned places on his body but recovered sufficiently two hours later to resume his work.

The lightning caused no damage to the barn housing the horses which were valued at about \$500.

Evicted Man on 'Soapbox Tour'

UNIONTOWN, Pa., April 4—(P)—Retired coal miner George M. Livengood, evicted from his home for back rent, today planned what he called "a soapbox tour" against United Mine Workers welfare fund trustees.

Livengood, 55, has a federal court suit pending in Washington, D.C., in which he charges the trustees of the welfare and pension fund with "wrongful disposition" of the group's money. He plans to air the charges in his tour of the country's coal fields.

Livengood, who was expelled from the union after filing the suit formerly receiving a pension from the UMW. Pension payments were suspended last year by the fund's trustees because reserves dropped to a dangerous point.

The victim of a heart ailment, Livengood took his wife and two children to a Uniontown hotel last night with what he said was his last \$7.

"I guess we'll be sleeping in our old car from now on," he declared.

Find Son After 30-Year-Hunt

DENVER, April 4—(P)—A Denver couple's 30-year search for their missing son has ended in success.

Mr. and Mrs. George G. Hill said last night they located their 35-year-old son, James Curtis Hill, in Reno, Nev., through the Veterans Administration.

Mrs. Hill said her mother left with the boy when he was five after an argument in Macomb, Ill., where they lived in 1920. Ever since then, she said, she has been searching for him without success.

The son wrote his parents that he left his grandparents and struck out on his own shortly after graduating from high school in 1933.

He plans to rejoin his parents here.

Two Children Held Hostage For Rent

WEIRTON, W. Va., April 4—(P)—Because their parents were behind \$19 on the rent, two little girls were held hostage by the landlady for two weeks, Sheriff's deputies reported today.

They removed the girls, aged four and two, today from the home of Mrs. Chester Chance of neighboring Cross Creek Township and gave them back to their father and mother, Mr. and Mrs. J. R. Chance.

Brooke County Sheriff Dick Hogg told this story:

The R. J. Chances had been rooming in the house. R. and Chester Chance are brothers. When they got a home of their own here, they moved.

But Mrs. Chester Chance insisted that they couldn't have their own children back until they paid back rent. She kept them for two weeks.

Kroger Stores in St. Louis Still Closed

ST. LOUIS, April 4—(P)—The Kroger stores in the St. Louis area remained closed today by a ten-day-old strike of 100 AFL delivery truck drivers employed by the company.

A meeting of the union truck drivers was scheduled this afternoon. Both company and union officials declined to predict whether today's meeting might mean an end to the strike.

The drivers have asked for a three-hour reduction in their work week with no reduction in pay.

WASHINGTON, April 4—(P)—The Economic Cooperation Administration (ECA) figured today that the average Western European now eats at the rate of 2,800 calories daily. The U.S. average is about 3,300.

ECA said the European diet is heavy on the bread-and-potatoes side, with meats, fats and sugar still scarcer than they were before World War II.

PHILADELPHIA, April 4—(P)—A page from the Betsy Ross Bible, stolen from the historic flag house, was recovered today.

Theft of the page, bearing original records of the Betsy Ross family, was reported yesterday. But police disclosed that actually it was stolen last Christmas by a 15-year-old high school student.

Detective Lieutenant Frank May said the boy disclosed the theft after it was made public. May said the page was insured for \$15,000.

WASHINGTON, April 4—(P)—Senator Jenner (R-Ind) today accused Secretary of State Acheson of a "pro-communist betrayal of the American people" in the allied dismantling of German industrial plants.

The Indiana Republican told the Senate that Acheson has led this country "into communist booby traps all over the world." But he centered his attack on the State Department's policies in Germany.

WASHINGTON, April 4—(P)—Senator Taft today quoted Herbert Hoover as saying the Hoover Commission never recommended wiping out the independent status of the National Labor Relations Board general counsel.

The Ohio Republican senator contends President Truman's proposed plan to reorganize the NLRB goes far beyond recommendations of the Hoover Commission for revamping the executive branch of the government.

Taft appeared before the Senate Expenditures committee which is considering the Truman reorganization proposal along with a resolution by Taft calling on the Senate to disapprove it.

Taft lashed out at the Truman proposal, calling it "political" and designed to "nullify" the Taft-Hartley labor law, of which Taft was a co-sponsor.

HONG KONG, April 4—(P)—One staid British newspaper today carried a Washington dispatch on Senate investigators demanding proof of Senator McCarthy's (R-Wis) communism charges against Owen Lattimore.

The headline: "Come on Joe, what do you know?"

HONG KONG, April 4—(P)—Wounded Reds—including men with ears or fingers cut off and women with breasts slashed—were brought to Canton from Kukong, the Independent Sing Tao Jih Pao reported today.

They were identified mostly as rural officials and grain collectors, objects of peasant ire.

Explanations And Opinions On Business

(Continued From Page One)

income and individual "liquid asset" are stabilized while installment buying goes on rising and that can lead to danger.

The securities and exchange commission reports that liquid savings last year came to \$4.3 billion, unchanged from the year before. The SEC raises an eyebrow, however, at the fact that "the average American" saved on only two per cent of his net income in 1940 while in 1949 he was putting away six per cent.

Liquid savings include cash and bank deposits, investments in savings and loan associations, insurance and securities.

Drop in Bank Deposits Bank statements out today in New York may throw some light on this trend. Most of them show a drop in deposits. Income tax payments could account for a large part of that.

Department store sales in New York are reported today 2.5 per cent lower this March than last, but for the nation as a whole the Federal Reserve Board reports sales running neck and neck with last year.

Weather conditions have a lot to do with the variations. And department store sales and total retail sales are two different things.

THE PRUDENTIAL INSURANCE COMPANY OF AMERICA

is happy to announce

A NEW HOME OFFICE

*—to better serve
the seven great
states of the*

HEARTLAND OF AMERICA

Yes, The Prudential Insurance Company of America is going to make the Heartland home—by establishing a home office in your region to serve you more efficiently.

In this modern home office in HOUSTON, TEXAS, will be centralized all our facilities for serving the States of Texas, Oklahoma, Arkansas, Louisiana, Mississippi, Missouri, and Kansas.

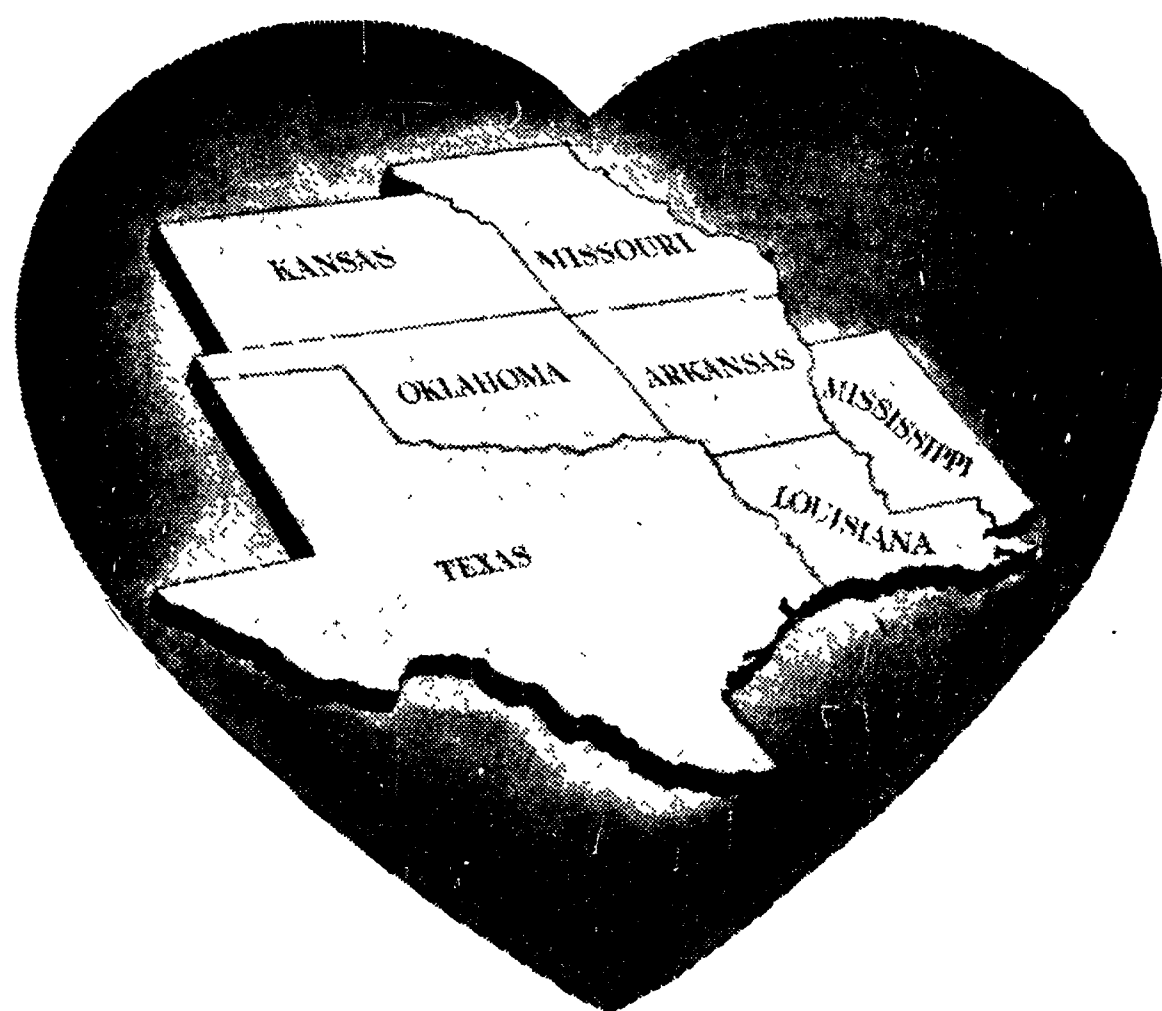

Our objective in establishing this office is to provide even better life insurance service to your community. It will also enable us to do a still better job of making Prudential dollars available to industry, and to individuals interested in owning their own homes, ranches, or farms.

This new Home Office will be the third of its kind announced by THE PRUDENTIAL. In 1948 the Western Home Office was opened in Los Angeles to administer the Company's business in the 11 western states and Hawaii. A similar office will be opened soon in Toronto to handle our Canadian business.

The Prudential was founded in 1875 as The Prudential Friendly Society to bring life insurance protection to the working man on terms he could afford.

As the original name implied, it was a friendly company whose operations were geared to the needs of its policyholders. Throughout our 75 years of service, we have kept it that way. And today, as we celebrate our 75th Anniversary year, one in every six persons in the United States is a Prudential policyholder.

Our decision to place a home office in your region is further tangible proof of our determination that THE PRUDENTIAL shall never grow away from the people it was created to serve.

The Heartland of America is the nation's biggest bright spot. During the last 10 years, its growth... in population... industry... manufacturing... farming... finance... has been far greater than the rest of the United States.

The Prudential is proud of its contribution to this progress through its investments in homes, farms, ranches, industries, which now total more than 750 million dollars.

The establishment of this new Home Office will enable us to play an even more vital part in the future progress of this great Region.

Total Demand Deposits Same

ST. LOUIS, April 4—(P)—Total demand deposits in Eighth Federal Reserve District banks remained at about the same level at this time last year despite a drop in farmers' accounts, the monthly review of the Federal Reserve Bank of St. Louis said Monday.

Demand deposit balances of financial businesses and city residents increased to offset drops in balances of farmers and non-financial businesses in the region.

The total at the end of January was \$4,200,000,000, the report stated.

The review said: "Rural banks received the lion's share of the demand deposit growth in the war period. In the first two postwar years they received diminishing shares of the expansion in such deposits and in the last two years suffered losses in demand deposit volume."

Deposit balances held up better in areas where agriculture and industry are diversified and labor income is a relatively large part of total income, the bank added.

In the large cities gains were most pronounced at St. Louis, Little Rock and Memphis, the review said.

Prison 30 To 35 Years To Kidnaper

CAMDEN, N. J., April 4—(P)—Frank La Salle, 52, former convict and unemployed auto mechanic, pleaded guilty today to a charge of kidnaping a 13-year-old girl, and was sent to prison for 30 to 35 years.

The plea, which came as a surprise, followed by slightly less than two weeks, La Salle's arrest in San Jose, Calif.

His apprehension was prompted by an urgent message from the girl—Sally Horner—to relatives here imploring "send the FBI for me, please."

La Salle was sentenced under the state's so-called "little Lindbergh" law enacted after the Lindbergh baby kidnaping March 1, 1932 at Flemington, N. J.

Camden County Prosecutor Mitchell H. Cohen said the girl spent 21 months with La Salle on cross-country travels.

In the short hearing before Judge Rocco Palese, the prosecutor called the gray-haired defendant "a moral leper" and added: "Mothers throughout the country will give a sigh of relief to know that a man of this type is safely in prison."

Silver Dollars Buys A Tractor

Employees of the Montgomery Ward and Company farm store were rather startled late Monday afternoon when John M. Earp, Jr., 14, and his father John M. Earp, Sr., walked in and plunked down a little over \$290 in silver dollars for a 1½-horse power tractor.

John had been saving his silver dollars since he was nine years of age. At that time his sister, Mrs. Russell T. Hull of Kansas City was employed in the atomic energy plant in Alamogordo, N. Mex., and

sent him the first nine silver dollars as a birthday present. That was five years ago and since then he has been adding to his savings regularly.

He is the son of Mr. and Mrs. John M. Earp Sr., of Versailles. His father is postmaster there and formerly publisher of the Versailles Leader. His father said that John Jr., would employ the tractor in the garden and on mowing lawns. The machine has plow, mower and disc attachments.

John, Jr., is a student in the Versailles public school.

Gets Wife To Safety Then Dies In Blaze

MARSHALL, Mo., April 4—(P)—Walter A. Davenport, 67, lost his life in a home fire after he had helped his wife to safety.

The fire, believed to have been caused by an overheated stove at the Davenport home southwest of here Sunday, blocked the escape of the couple through the only door of the home. Davenport helped his wife through a window and then collapsed in the path of the flames.

Helen Hayes Shows Russians Up in Her New Play

By Mark Barron
NEW YORK, April 1—(AP)—Helen Hayes, who has inspired more sentiment and tears in a single evening devoted to a star since Sarah Bernhardt, enraptured a Broadway audience this week with the arrival of an almost new American play, "The Wisteria Trees."

In "The Wisteria Trees" Miss Hayes must be considerably embarrassing to the Russians because she takes a Chekhov play, performs it in an American idiom and setting and makes it seem human and understanding; and with a tender heart.

Joshua Logan has taken Anton Chekhov's "The Cherry Orchard" and rewritten it into this new Broadway play which now appears as "The Wisteria Trees."

As for the difference between "The Cherry Orchard" and "The Wisteria Trees," there is this evidence of the spoken word from author-director Logan:

Unusual Piece of Literature
"I believe that 'The Cherry Orchard' is an extraordinary, universal and indestructible piece of literature. 'The Wisteria Trees' is suggested by a masterpiece, but it is not a translation, nor even an adaptation of the Chekhov play."

Undoubtedly and understandably, it is strange that a Princeton University student like Logan and a girl plucked from under the peach trees like Helen Hayes should be doing a Russian play which has had its locale and characters transferred into the tropical clime of Louisiana.

This is the way it happened: Logan, while at Princeton, was given a scholarship at Stanislavsky's Moscow art theater and there he saw "The Cherry Orchard." Logan was a Louisiana boy, brought up on one of those lush, poverty-stricken plantations. And in Russia, he immediately began transplanting the scenes of "The Cherry Orchard" back into his boyhood experiences on a Louisiana plantation and from that came "The Wisteria Trees."

Story of Drama
In this drama which Helen Hayes plays with the stature of the great actress she is, Logan has shifted his scene from a closed-door Russian house to a family mansion on the Wisteria plantation in Louisiana. There the family has been living luxuriously, no one having to bother about work. Now they have arrived at a time where they must seek work, a day to day job. And the one thing they are complaining about is that the Wisteria trees will have to be cut down so that the land can be cut up into small shares where truck gardens can be grown.

Has a Triumph
This is the situation that Miss Hayes, as the high born Lucy Andree Ransdell, faces when it is time for her to take over the estate, to face the inevitability of foreclosure and to tell her several high born relatives that they must get out and scrub floors or make a living in any way they can find employment.

Miss Hayes has in "The Wisteria Trees" a triumph, a triumph both for the theater and for herself. She has able support in Kent Smith, Walter Abel and Peggy

Van Natta Club Meeting

The Van Natta Extension club met on March 8, at the home of Mrs. Wesley Harding.

A contributive luncheon was served at the noon hour followed by the regular business session which was opened by singing "A Song of Peace," and repeating the Club Collect.

Members responded to roll call by telling of "A Secret Ambition I Once Had." There were five visitors present, Mrs. Roy Alexander, Mrs. Cecil Perriguy and Mrs. Dewey Geiser.

The club voted to make a donation to the Cancer Fund.

Mrs. Arthur Turner gave a reading, "Adolescence."

The president, Mrs. George Gorell gave a demonstration on how to make covered buttons.

The meeting was then turned over to the Food Leaders, Mrs. George Bucholz and Mrs. Luther Fenley who had attended the recent Leader Training meeting on "Pepper Uppers for Dull Meals." They gave interesting talks and demonstrated their skill by serving, along with the luncheon, dishes they had prepared at the meeting.

Following the business meeting the game leader, Mrs. Edward Nelson, led the group in some games and contests.

The April meeting will be held at the home of Mrs. Lee Hudson in LaMonte.

Mackenzie's Column

By Dewitt Mackenzie
AP Foreign Affairs Analyst

The Red war against rebellion is being stepped up in Eastern Europe.

We return to this subject because it is a vital aspect of the Soviet crusade to Communize the world. Success or failure of the Communist offensive may hinge largely on this front.

Ten high-ranking Catholic clergymen have gone on trial in Prague, charged with high treason and spying for the Vatican. A Vatican informant in Rome says this indicates that the last of the faithful Roman Catholic leaders in Czechoslovakia "are about to be suppressed."

This comes as the international court of justice at the Hague rules in effect that three other satellites—Hungary, Romania and Bulgaria—must appear before the bar of justice in the United Nations and answer charges of violating the human rights provisions of their peace treaties. These charges were brought by America and Britain, and were based on the trial of Cardinal Mindszenty in Hungary and the trials of other high churchmen in Romania and Bulgaria.

Can't Compel Answers

Of course there is no method of compelling the satellites to answer the charges, and they may refuse to comply. However, the Hague decision will help focus world attention on the anti-religious activities in Soviet dominated areas.

These activities were graphically summed up by Attorney General J. Howard McGrath the other night in a speech at New York. He declared that "in the world behind the Iron Curtain a death struggle is being waged against belief in God in any form." He added that "Christians, Jews and Mohammedans alike are persecuted for their belief in the omnipotence of the Almighty and His teachings."

Why this drive against religion? It's essential that we know the answer to that because Aethism is one of the cardinal tenets of Communism.

Cannot Tolerate Religion

The Red ism cannot tolerate religion because the latter condemns the sweeping violations of human rights upon which Communism is building.

The Soviet attitude towards religion was made quite clear just the other day by the newspaper "Komsomolskaya Pravda," organ of the youth organization "Komsomol." A youth who was a member of the organization wrote to the paper for advice:

"I intend to marry a girl who is not a member of the Komsomols and who wishes we should marry in church. Please tell whether I can marry in church."

The newspaper published a reply that a church marriage would be in direct violation of Komsomol statutes and would be an unprincipled step according to Communist morals. It added:

"It is clear that religious beliefs are deeply alien to our convictions and basically opposed to the tasks of Communist education."

Concentrating on Young Folks That's the way Communism

Presidential Family Counted

Mrs. Eileen M. Nolte (left), census enumerator in the Key West, Fla., area, takes the census information on the presidential family. Seated for the interview (left to right), are Mrs. Truman, the President and daughter, Margaret. Mrs. Truman points to an item for the census taker. (AP Wirephoto)

rears its youth, and it is concentrating on young folks both at home and abroad. Young minds are more easily molded. That is why we find Communism placing so much emphasis on securing Red agents among teachers in schools and colleges and churches.

Apropos of this Lord Vansittart the other night charged in the British House of Lords that Reds have infiltrated Britain's pulpits, schoolrooms, radio and government. The House adopted a motion calling for resolute precautions to protect the country from Communists in government.

There is no longer any doubt that Communism is out to kill all religion. Hitler undertook the same task and for the same reason—religion interfered with his schemes. He presumably stole the idea from Communism.

Cubs First Game With Holden

The newly organized semi-pro team of Sedalia, the Sedalia Cubs, will play their first game of the season at the Liberty Park diamond Sunday April 30, at 2:30 p. m. with "Stub" Roberts' Holden Chiefs.

This game though a starter for the season should provide plenty of good baseball for the local fans. The Cubs have held their first practice session and have reported their hitting was unusually good for this time of the season.

The Cubs will soon have the remainder of their schedule completed and have had several very promising offers. Their schedule will include Sunday afternoons, nights and Thursday and Friday nights.

The Cubs will practice again Wednesday evening at 5:30 o'clock weather permitting, and the coaches and managers ask that all pitchers and catchers please show up.

Resolution To Combat Gambling

KANSAS CITY, April 4—(P)—The Ministerial Alliance Monday adopted a resolution to take up the matter of "wide open" gambling with Gov. Forrest Smith, city and county officials and the board of police commissioners.

Action by the members followed a report by Dr. D. A. Holmes, pastor of the Paseo Baptist church, Negro, and member of the alliance's civic committee.

Dr. Holmes said there are many gambling places open "to the extent of going full force."

'You've Got to Beat 'em to Take The Big Apple'

By Whitney Martin
ST. PETERSBURG, Fla., April 4—(P)—Stan Musial hit two consecutive pitches out of the park, then took a tremendous swing, missed, and fell flat on his face in the batting cage. Enos Slaughter, leaning against the cage, roared with laughter.

"That was the same man who hit those other two, gentlemen," he shouted gleefully. "The same man," Musial arose, dusted himself off and grinned sheepishly. He said nothing as he resumed his stance, but there was something significant in the good-natured ribbing and the way it was taken; a tight bond of fellowship seems to be a trademark of the St. Louis Cardinals.

Blended Into a Unit
It is apparent in a thousand little ways. Most of the athletes have been through so much together, have mutually enjoyed the great triumphs and smarted under the same disappointments, that they are blended into a unit.

It is apparent in their clubhouse here, a low, sprawling building, nestled between the modern concrete grandstand of Al Lang field and the bay into which well-nudged home runs over the left field fence splash.

There isn't another clubhouse quite like it, with its modified bedlam of noise and confusion. Half-dressed athletes may be grouped about a trunk in an impromptu card game. The omnipresent phonograph will be scratchily howling a hillbilly tune. There are shouts and loud banter and noisy laughter.

Lots of Freedom
The door to Manager Eddie Dyer's cubbyhole dressing room invariably is open, and the players wander in and out at will. All call him "skip," and he loves it.

The setting is a carryover from the "gas-house gang" days, the new players taking their cut from the veterans to perpetuate the spirit of freedom and abandon and unity which makes itself so evident when the team goes on the field. They'll tear your legs off to score a run, but that's the way they play the game, up to the hilt.

Still Take the Birds
That's why a lot of critics who otherwise might think there was too much old blood on the team, speaking in terms of playing years rather than actual years, still string along with the Red Birds in the pennant race.

Their spirit and will-to-win, nourished through the years when a world series cut meant so much to them, offset any gradual slowing in the step or weakness in the arm.

You've got to beat 'em to take the big apple; they won't beat themselves.

PGA Fired Its Bureau Manager

CHICAGO, April 4—(P)—The Professional Golf Association awaited today the aftermath of its firing of George Schneider as tournament bureau manager. Open revolt of headline golfers from the parent organization may follow in the wake.

Schneider came to Chicago yesterday as a player-representative to meet with PGA officials including Joe Novak, president, Horton Smith, secretary; Tom Crane, executive secretary; Harry Mommitt of Toledo, treasurer, and several members of the advisory tournament sponsors' group.

Circuit Judge 'Just Hates the Cardinals'

ST. LOUIS, April 4—(P)—The St. Louis Browns have an ardent fan—and the Cardinals an enemy—in Circuit Judge James E. McLaughlin.

The judge disqualified himself yesterday in a \$25,000 damage suit against the Cardinals because of his pronounced baseball feelings.

"The court is so biased and prejudiced against the defendant in this case that it would not want to be placed in a position where some of its decisions would be called dishonest," McLaughlin said with a smile.

"I've been an ardent Brown rooter for years and I can't help it. I just hate the Cardinals."

The damage suit was filed by Mrs. John T. Hughes, who claims she suffered a broken arm and head injuries when she was knocked down and trampled by two over-enthusiastic seat cushion gashers. The case was transferred to another court.

Globetrotters Dropped Basketball Game

CLEVELAND, April 4—(P)—Harlem's famed Globetrotters and the college All-Americans were tied at one-all today in their 18-game cross-country basketball tour.

Playing on a slippery, sweating floor that caused numerous spills, the collegians led all the way last night and romped to a 66-58 victory.

The two teams meet again tonight in Indianapolis. The Globetrotters, who have suffered only three losses in 150 games this season, won the opening contest in Chicago, 58-47.

Briefs on Major Leagues While in Spring Training

SAN ANTONIO, Tex., April 4—(P)—Leo Durocher, manager of the New York Giants, says he isn't worried about the performances turned in by his pitchers Not yet, anyway.

"But if it keeps up, then I will really worry," he said after three pitchers were bombed for 31 runs in three games.

"The fellows are throwing hard and their arms are loose. That's all I'm interested in."

Durocher's hurlers lost a 5-3 decision to Cleveland yesterday.

Jackie Jensen Was Power for Yankees

ST. PETERSBURG, Fla., April 4—(P)—Jackie Jensen, bonus beauty from the University of California, has begun to make the New York Yankees' brain trust sit up and take notice.

A mediocre .196 hitter in 10 previous contests, Jensen cracked out a single, triple and home run yesterday against the Cincinnati Reds. He scored three times.

In addition, the home run gave Jackie the club lead with four Cincinnati won the game, 6 to 5.

Third Base Is a Sore Spot

SAN ANTONIO, Tex., April 4—(P)—Third baseman Frank Gustine made his initial appearance of the season in the St. Louis Browns' lineup yesterday but failed to get a hit.

He did show a nice bit of field work, however, when he pulled in a relay to tag Dave Philley of the Chicago White Sox who was trying to stretch a blow into a triple.

Third base has been a sore spot with the Browns.

Player Released By Cardinals

ST. PETERSBURG, Fla., April 4—(P)—Outfielder Harold Stamey bonus player drafted by the St. Louis Cardinals from the Philadelphia Phils' organization last fall, has been claimed on waivers from Cincinnati.

He is assigned to the Reds' South Atlantic team at Columbia, S.C.

Stamey is the second player released by the Cards this spring, cutting their roster to 38. Pitcher Bill Reeder was sent outright to the Rochester team last Saturday.

Braves Wind Up Spring Training

BRADENTON, Fla., April 4—(P)—Boston's Braves wind up their spring training exhibitions at their camp here today by playing the St. Louis Cardinals. The pitching against the Redbirds will be by Dick Manville. Bob Hogue, Ernie Johnson and Glenn Elliott Tommy Holmes, who for years has been the popular, timely hitting right fielder for the Tribe, apparently has become the club's reserve first baseman.

Red Sox to Start Trip Northward

SARASOTA, Fla., April 4—(P)—Boston's Red Sox have finished their Sarasota springtime exhibition ball games. After an hour and a half workout today they will prepare to break camp and will start their barnstorming trip northward with a game against Jacksonville there tomorrow.

Oldtimers Have Zeal of Rookies

SAN ANTONIO, Tex., April 4—(P)—Pitcher Early Wynn and second baseman Joe Gordon, two oldtimers, have been performing for the Cleveland Indians on the Grapefruit grind with the zeal of a couple of rookies.

Wynn, a big rightlander who is 30 and has been in the majors since 1941, has won five starts and hasn't lost one. Yesterday at El Paso he allowed the New York Giants only six hits in seven innings as the Tribe won 5-3.

The 35-year-old Gordon, who came into the bigtime 12 years ago, clouted a 365-foot homer over the centerfield wall with a man aboard. He had a home Sunday, too, and his total of five is only two less than that of Luke Easter who's been at bat about twice as often.

Reds Are Homeward Bound

ATLANTA, Ga., April 4—(P)—The Cincinnati Reds were homeward bound today—they'll meet Atlanta of the Southern Association here tonight.

The Reds closed out their Florida training with a 6 to 5 victory yesterday over the New York Yankees.

Newhouse Has Arm Trouble

LAKELEND, Fla., April 4—(P)—It looks now as though Hal Newhouse's mysterious arm trouble may prevent him from pitching the Detroit Tigers' American League opener.

The opener—against Cleveland April 18 this year—has been Hal's private property in the past.

Manager Red Rolfe is figuring on Freddie Hutchinson or Art Houtteman.

Won't Be So Patient With Athletic Pitchers

WEST PALM BEACH, Fla., April 4—(P)—There will be no dilly-dallying with pitchers who don't produce in games played by the Philadelphia Athletics this year, Manager Connie Mack said today.

"We are not going to be so patient this year with our pitchers," the 87-year-old manager said in outlining the A's new policy.

"In the past it has been impossible for us to take a pitcher out of the game after he walked several men in succession because we would not have another pitcher to put in his place.

"This year things will be different. We still don't have as many pitchers as I would like, but I feel that the nine we will have all will prove themselves capable."

Nationals Ordered to Take Rest

ORLANDO, Fla., April 4—(P)—With time getting short to get in shape for big league play, the Washington Nationals were ordered to take a rest today.

Manager Bucky Harris figured they need it after watching what he thought was his best pitcher, Rae Scarborough, get walloped for 17 hits by a team of minor leaguers yesterday. The Springfield, Mass., club of the International League humiliated the Nats. 7-4.

A Juvenile Infield For Chicago Cubs

Housecleaning For Cubs Has Been Thorough

Bo Gayle Talbot

PHOENIX, Ariz., April 4—(P)—Frankie Frisch refuses to weaken in his determination to start his Chicago Cubs off with a juvenile infield in this year's National League scramble.

"Those guys we had last year couldn't win," he says, reasonably. "You can't finish any worse than last. I'm going to go with the kids until they show me they can't do any better."

The Cubs housecleaning has been most thorough. Only two men remain of the 1945 team which won the pennant and lost to Detroit in the world series—Andy Pafko and Phil Cavaretta.

Pafko is set to start in center-field again, but Cavaretta, at 33, will find himself reduced to utility duty in the outfield and at first base if Frisch's brave new infield holds up.

Were in Minors

Three of the infield designees were in the minor leagues this time a year ago. Preston Ward, 22, was first-basing for Fort Worth in the Texas League; Wayne Terwilliger, 23, was holding down second for Los Angeles of the Pacific Coast League; and Bill Selem, 23, was at third for Dallas of the Texas League.

Only Roy Smalley, 23, and bullet-armed, survives at shortstop of the infield which started out under Charlie Grimm last spring. He is the standout young player on the club.

Ward, who started with Brooklyn back in '48, had a fine year with Fort Worth, batting .303 and knocking in 112 runs. He is a polished man around the bag, and Frisch is convinced he's ready.

Slick Fielder

Terwilliger is of rather slight build and gives little promise of important hitting, but he is a slick fielder and should team with Smalley for a sizable crop of double plays.

Serena, before joining the Cubs late last season, compiled a .281 average for Dallas and slammed 28 homers, third highest in the Texas League. Ransom Jackson, a long-ball hitting rookie from Oklahoma City, and Bob Ramazotti, obtained from Brooklyn, just about complete the infield possibilities.

The outfield could have pretty good power. Pafko fell off to .281 last year, but he was over .300 each of the two previous seasons. Hank Sauer, who will play left, clouted 31 homers for Cincinnati and the Cubs last year and knocked in 99 runs. Bob Borkowski, a 376 clubber from Nashville, is giving holdover Hal Jeffcoat a tussle for the rightfield spot.

Minnesota Makes a Strong Bid in NCAA

CHICAGO, April 4—(P)—Minnesota, celebrating its centennial year in 1951, has entered strong overtures for the NCAA basketball championship tourney next March.

The Gophers' bid, backed by guaranteed accommodations in a new, and one of the nation's finest, fieldhouses, will be considered today by the NCAA's executive committee. Boxing tourney sites and dates also may be considered for 1951.

Johnny Sain May Regain His Old Pitching Form

By The Associated Press

Johnny Sain, ace Boston Braves pitcher, no longer had a scoreless-inning streak to boast about today. Nevertheless, the big right-hander gives promise of regaining his brilliant 1948 form.

The strapping 200-pounder sparked the Braves to the National League pennant two seasons ago when he won 24 games and lost 15, striking out 137 batters and walking 83.

He couldn't maintain the pace last year. Hindered by a sore arm and seeing less action, the Arkansas moundsman had a record of 10 and 27.

With the same Braves in 1947, he had a 21-12 mark and, in 1946, it was 20 and 14.

Blanked Tigers

Johnny stretched his string of scoreless innings to 18 yesterday by blanking the tough Tigers from Detroit in the first inning of a game at Lakeland, Fla., won by the Braves, 6-4.

Sain finally was nicked for a run in the second inning. In all, he worked five innings, gave three runs and seven hits before being replaced in the sixth by Vern Bickford.

The Red Sox, Boston's highly respected American League representatives, dropped their seventh game in their last eighth starts by finishing on the wrong end of a 5-4 tussle with the St. Louis Cardinals.

Cardinal President Hopes to Obtain Miller

Fred Saigh, Cardinal president, revealed last night that he would like to sign Eddie Miller, veteran infielder recently dropped by the Philadelphia Phils.

Stopping off in Atlanta, Ga., on his way to St. Louis, Saigh said, "I hope we can get Miller. If he does come with us it will bolster our infield a great deal. Miller can give relief to Marty Marion at shortstop or he can move over in place of Red Schoendienst at second base."

Saigh did not say whether any actual move to land Miller had been made.

Gov. Smith Appeals For Gas Tax Increase To Better Roads

Continued from Page One

of the state. It will improve and modernize the main state highway system. It will enable the cities to build trafficways to relieve high way bottlenecks. It will extend the farm-to-market road system.

"And, important too, more revenue for the state highway department means aid can be given the cities for maintenance of streets over which our highways are located.

"All road revenue will be spent under the sole direction of the state highway department.

"Farmers, and other users of non-highway gasoline, will get their refunds on the entire amount of the tax.

"The gasoline tax rate has remained unchanged in Missouri for the past 25 years. Yet highway construction costs have more than doubled during the same period.

Maintenance Cost Soared
"Heavy increase of bus and truck traffic has sent highway maintenance costs soaring from \$5 million in 1941 to \$12 million this year.

"More than 4,500 miles of the present highway system must have immediate attention in the interest of public safety. We must protect the state's half billion dollar investment in our highways by maintenance.

"Last year 788 were killed in traffic accidents alone on Missouri highways. Twenty-seven thousands six hundred persons were injured. This traffic slaughter on our highways can be greatly reduced by modernizing our old highways.

Mud Roads 42,000 Miles
"Missouri has more than 42,000 miles of mud roads. One-sixth of our population are mud-bound in bad weather. Let us be a good Samaritan tomorrow and help our farmer neighbors.

"Thousands of our people are forced to use horse-drawn vehicles a part of every year. Doctors are unable to attend the sick and dying because of these impassable roads.

"Thousands of farm homes fail to get mail regularly because the letter carrier is unable to travel over the mud roads.

"Many school children are deprived of continuing their education because of the impassable condition of rural roads. Many thousands children spend more time riding to and from school in horse-drawn wagons than they spend in classrooms.

"Our school consolidation program cannot go forward until we have more and better highways. Good schools and good roads go together.

"This road program is a general

Joe Tipton, Now With the Athletics, Sure Gets Around

By Jack Hand

WEST PALM BEACH, Fla., April 4—(P)—Are you bored? Tired of the same old faces? Want a change?

Join the Joe Tipton excursion. The 27-year old catcher, now with the Philadelphia A's gets around. This is his third club in three seasons. He's been in the big leagues three years.

Tipton, a farm boy from McCaysville, Ga., is "sure delighted to be over here" with the Athletics. He holds no grudges against Cleveland or Chicago, his former employers. He's just "relieved."

After 34 months' service in the Navy, Tipton hit .327 in Harrisburg, Pa., in 1946. Next year was his big one, .375 at Wilkes-Barre, Pa., in the Eastern League.

Off that year at Wilkes-Barre he moved up to Cleveland. Joe caught 47 games for the pennant-bound Indians.

Indians Unloaded Him

The Indians unloaded Tipton, a .289 hitter, a month after they won the world series. There were a couple of reasons. One was an argument at the pennant-clinching party. Another was that Cleveland wanted to get Pitcher Jo Haynes from Chicago. Tipton went to the White Sox.

It was sure to be only a mat-

ter of time before the temperaments of Tipton and Jack Onslow, fiery White Sox manager, would clash.

"We got in a wrangle at St. Louis," said Tipton. We wanted to call the pitches from the bench. I told him if I was a big league catcher I knew enough to call the pitches myself. He chewed me up said to take his signs.

More Fines

"Hell, I took no signs from him. The next thing you know that big Graham (Jack Graham) hit one off the wall. Onslow came rarin' out and fines me \$100 and the pitcher \$100. The pitcher was Bob Kuzava. I said something back at Jack and he made it \$400 more.

"The fines never stuck. But one day last summer I went up to Frank Lane (White Sox general manager) and told him 'don't you send me a contract next winter if Onslow is still here.' He did even better and told me 'I'll guarantee you won't get a contract from Chicago next year.'

"He kept his word, too. Two weeks after the season was over and they announced Onslow was coming back, I was traded to the Athletics for Nelson Fox."

So far Tipton is scrambling with Joe Astroth and recently-arrived Mike Guerra for the No. 1 job.

Public Welfare Program

"We must approve this program if we are to reduce the staggering death toll.

"It will insure medical attention when it is urgently needed. It will enable our rural school children to have equal education with the children in the cities.

Not Risk Federal Aid

"Missouri cannot — must not — risk the loss of millions of dollars in federal aid.

"Last December 31, there were \$31,000,000 in federal aid available for Missouri. Our state highway department did not have the matching dollars as required.

"This year the department will have only about \$6,000,000 with which to match federal funds. The money for this purpose is decreasing every year. The situation is now critical.

"The states around Missouri are all spending more on their roads than we are. They will be glad to get our share of federal aid to use on their roads. We must not let this happen.

"Missouri is already far behind the remainder of our country with postwar highway construction.

"The backlog of federal aid saved up during the war years has been spent, as has the money from the road bonds.

"We are now on a pay-as-we-go basis.

"Last year there was \$24,000,000 available for new highway construction. This year only 7 1/2 million dollars are available from state funds. The money for new roads will continue to decrease as our maintenance cost climbs.

'Need Greater Today'

"The very organizations opposing this good roads law were frantically working two years ago to get the people to vote a 3 1/2-cent gas tax. If that amount was needed for our roads then, the need today is certainly greater.

"We have already saved the motorists of Missouri one-half of the cost of the proposed new road law.

"It has been repeatedly charged gasoline prices in Missouri are too high, considering we have the lowest gas tax in the nation.

"Within a week after that charge was first made the oil companies reduced the price of gasoline in this state one cent.

"Missouri is still not being treated fairly by the oil companies.

"Today regular gasoline can be purchased in Arkansas for 23 cents a gallon. That is the same price we pay in Jefferson City. Yet the gas tax in Arkansas is 6 1/2 cents a gallon—four and one-half cents more than we pay in Missouri.

"There is not now—and never has been—the difference in the price of gasoline in Missouri and in other states having a higher gas tax. We seem to be paying more for our gasoline thereby helping other states build more roads.

"Remember, there is nothing new about this proposed road law. It was passed upon a program that was originated by a bipartisan advisory committee. It was adopted by Republicans and Democrats alike in the state legislature. The members of the General Assembly carefully and thoroughly considered the present law upon which you will vote tomorrow. Every point for and against it was passed upon.

"The action of the legislature after careful study in approving this proposed law is proof enough as to the real need for more money for our highway department.

"The state highway commission, after studying the proposal, says it will provide funds to: 1—Match federal aid with which to build more supplementary roads; 2—To do much needed highway

Wrestling Matches Postponed Again

The wrestling matches which were scheduled for this Friday night have been cancelled according to word received from Promoter Pearl Christy as a result of a mixed schedule of the girl wrestlers who were to appear here.

The schedule for the week called for four girl wrestlers and a

members of the Optimist club, and others, for arranging and sponsoring this meeting. I greatly appreciate the spirit of cooperation and warm friendliness which prompted the invitation to make the final talk in this good roads campaign here in Sedalia.

"I have only recently learned of the outstanding service being rendered to the boys of Sedalia by the Optimist club.

"The Junior Optimist clubs are helping to make better boys today. This will mean better citizens tomorrow.

"I am told 90 per cent of these Junior Optimists attend Sunday school and church regularly as a result of this boys' program.

"And equally important, there has been a very noticeable decrease in juvenile delinquency since these boys' clubs were started.

"The Optimists, I understand, have built and equipped a cabin for week-end camping trips for the boys this summer.

"I commend this outstanding public service being rendered by the Sedalia Optimist club. I know of no finer activity in the state. In helping these boys to become better men tomorrow I am sure you men of the Optimist club are also finding new enjoyment in your own lives.

"I only wish we had a similar boys' program in every community of the state. Then we would have but little need for the state institutions at Boonville and Jefferson City.

"A while ago I spoke to you generally of the benefits the proposed new highway program to be voted upon tomorrow would provide Missouri.

Benefits To Pettis County

"Now I would like to point out the benefits Sedalia, Pettis county and your neighboring counties will get if this new road law is approved.

"The 8-county area, which includes Pettis and its surrounding counties, will get \$1,298,411 annually for rural roads alone.

"This is nearly five times the average amount these same counties have received annually for the past 10 years for construction of farm-to-market roads.

"Pettis county will get \$186,476 each year for rural roads. Compare this with the \$39,777 which is the average your county has received annually for construction over the past 10 years.

"There is another feature of this road program that is important to you in Pettis county.

"This money can be used to help maintain the fine system of all-weather roads you now have. Never again will hard-surfaced roads revert to mud roads.

'Help For Cities'

"Largely through the efforts of your very able mayor, and my friend, Col. Julian Bagby, the state highway commission has announced that if this road program is approved tomorrow, it will, as quickly as possible, help cities such as Sedalia with the maintenance of streets over which our state highways are located. This will mean much to Sedalia.

"I, for one, believe the state should help the cities. The out-of-town traffic, for the most part, is responsible for the wear and tear on this city's traffic routes.

"The state should bear the cost of the maintenance of those streets. And I am sure the time is not far off when the state will assume that responsibility if this new road law is approved.

"The selfish interests opposing

standing in the St. Louis booking office the women wrestlers were scheduled to Indiana and were unable to come to Sedalia in time for the Friday events.

Bipartism Inquiry Is Proposed

Lodge For It As Truman Tells Officials Ignore Subpoenas Issued

By Francis J. Kelly
WASHINGTON, April 4 (AP)—Senator Henry Cabot Lodge, Jr., Monday condemned the Senate's State Department investigation as damaging the United States before the world. He called for a bipartisan commission to dig out the truth.

Lodge said the method of hearing charges of Communism often smeared innocent persons, missed "the really dangerous individuals," and could actually protect "the real Communist ringleaders." The Massachusetts Republican is a member of the Senate foreign relations subcommittee conducting the investigation into charges of Senator McCarthy (R-Wis) of Reds in the state department. He added:

"All we can learn so far shows clearly that none of the current charges have been proven."

Justified On FBI Files
He condemned President Truman's refusal to disclose government loyalty files of those accused by McCarthy, although he said it was justified in the case of FBI material. Lodge did not mention either man by name in his attack on the methods permitted by the committee.

He told the Senate that if a political purpose exists in the investigation, "it merits unreserved condemnation."

McCarthy, in a statement, said he favored the Lodge proposal for a nonpartisan confidential study. Lodge declared that damage is mounting from the present way Congress is trying to check disloyalty charges. He cautioned that because the inquiry affects the nation's foreign relations, it has a life and death meaning for every American.

"Americans must stand together before the world menace of Communism," he declared. "Dangerous days are in the offing."

Lodge's proposal, offered with that grave emphasis to the Senate, was one of several developments today in the furor growing out of charges by McCarthy that Communist influences pervade the state department.

From the naval hospital where he is undergoing treatment for a sinus condition, McCarthy also issued a statement demanding the release of a secret memorandum on Far Eastern policies given to the state department last year by Owen Lattimore.

Revealed By Lattimore
The state department declined to make the document public, but a few hours later Lattimore himself did so, through his lawyer. He is a Johns Hopkins university professor whom McCarthy accused of being the Kremlin's top agent in

Offer Of Storage Payments Made

WASHINGTON, April 4—(AP)—The agriculture department Monday offered storage payments to farmers for holding about \$700,000,000 worth of surplus grains on farms another 12 months.

The offer was made on 1949-crop wheat, corn, oats, barley grain sorghum, rye and flaxseed now stored on farms under price support programs. It is designed to slow down the flow of price-support grains off farms in excess of market needs and commercial storage facilities.

The storage rates offered were: Wheat and rye 10 to 11.5 cents a bushel depending on the area; oats 8 cents; barley 10 cents; flaxseed 11.5; grain sorghum 17.8 to 20.5 cents for 100 pounds or 10 to 11.5 cents a bushel, depending upon the area; and corn 10 cents a bushel.

ed that he had advised the state department last August against "premature or excessive strategic deployment in the Far East." He also said he thought the United States should abandon further support of Chiang Kai-Shek, not attempt to bring trade pressure on Communist China, and withdraw from what he called "entanglements" in South Korea as soon as possible.

In a statement accompanying his release of the memorandum, Lattimore said there was nothing novel about his views, which he said were well known to every student of China policy. He said he had planned to make the document public in his forthcoming appearance before the subcommittee which is investigating McCarthy's charges, and had expressed practically the same views in an article in the January issue of Atlantic monthly.

In another development today, President Truman formally notified the Senate subcommittee that he has told federal officials to ignore subpoenas which ordered them to hand over the loyalty files of state department employees accused by McCarthy.

The action was strictly a formality. Mr. Truman had made it clear last week he had no intention of turning over the files which are assumed to contain a great deal of confidential data.

Union Service By Alliance Good Friday

Fifteen Pastors Will Participate During Three Hours

A three hour Good Friday service, sponsored by the Sedalia Ministerial Alliance, will be held at the Federated Congregational Presbyterian church, Sixth and Osage avenue from 12 o'clock noon until 3 p. m. Speakers at the service will be seven pastors of local churches, and eight other pastors will preside during the three hours of the service. Organists, and soloists will be provided by churches of the alliance. Since this three hour devotional service will be based upon the seven last words of Jesus from the Cross, meditations of the participating pastors will each be based upon one of these words.

Order of Service
The order of service will be as follows:

12:00-12:05—A prelude of meditation, Miss Mabel DeWitt. The invocation and call to worship, Rev. R. R. Parker, pastor, Church of the Open Bible.

12:05-12:30—Rev. William C. Bessemer, pastor, Evangelical and Reformed church, presiding. Rev. George Acree, pastor of the Assembly of God church, will speak on the topic, "Forgiveness at the Cross."

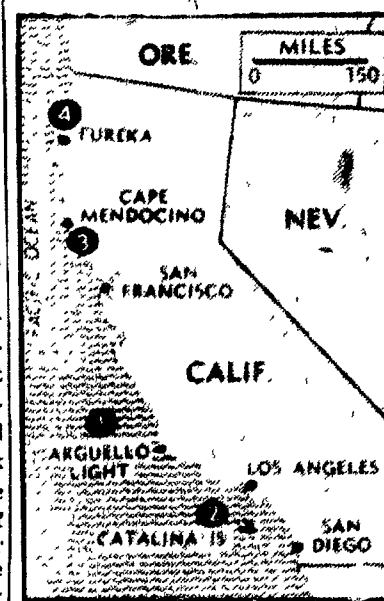

12:30-12:55—Rev. H. E. Hurd, pastor, Epworth Methodist church, presiding. Rev. J. A. Himes, pastor, Free Methodist church, speaking on the topic, "Authority at the Cross."

12:55-1:20—Rev. Thomas Croxton, First Baptist church, presiding. Rev. Roy Bowers, pastor, First Methodist church speaking on the topic, "Remembrance at the Cross."

1:20-1:45—Rev. H. U. Campbell, pastor Fifth Street Methodist church, presiding. Rev. Glen Lindley, pastor, Congregational-Presbyterian church, speaking on the topic, "Submission at the Cross."

Rally And Fish Fry Is Held

W. F. Brown In Address At One Monday Night

An overflow crowd gathered at 121 East Main street, Monday night to attend a political rally and fish fry, held by members of the Progressive Democratic Club, at which time William F. Brown was the principal speaker.

Carl Abbott had charge of the meeting and introduced the Democratic candidates running for city offices. Speaking besides the candidates and principal speaker was John Hendron, state Democratic chairman, who gave an organizational talk concerning the Democratic party.

Mr. Brown reviewed the accomplishments of the Democratic administration during the past four years in Sedalia, and also stressed the point that the Democratic party has operated as a team and will continue to do such.

The speaker further pointed out that the opposition had accused the Democratic party by inference of mis-management and the exhaustion of funds in administering the sewer project. The speaker pointed out that the audit as of March 31 1950 showed a total balance of \$405,304.94 to take care of the sewer project, voted by the citizens of Sedalia on November 18, 1947. Mr. Brown further stated that the sewer project would be completed in accordance with the plans approved by the Citizens Committee.
